Captain Cook R N The Resolute Mariner:

Captain Cook, R. N. Thomas Vaughan, C. M. Murray-Oliver, 1974-06-01 *Captain Cook, R.N., the Resolute Mariner*
Thomas Vaughan, 1974 *Captain Cook, R. N.* Thomas Vaughan, Anthony Audrey St. Clair Murray Murray-Oliver, Oregon
Historical Society, 1974 **Historical Dictionary of the Discovery and Exploration of the Northwest Coast of
America** Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon
Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map
First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was
systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s
Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States
led to further exploration and ensured that the region would become disputed territory before national boundaries were
determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of
America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and
the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory
essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400
cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an
invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus
Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of
Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders
including George Dixon Grigori Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely
to the coverage of this region **European Vision and the South Pacific Third Edition** Bernard Smith, 2022-10-05
Bernard Smith 1916 2011 was arguably Australia s greatest art historian and one of the most important humanist thinkers
internationally on ideas concerning cultural contact His *European Vision and the South Pacific* first published in 1960
showed how the ideas of the Enlightenment and the empirical structuring of scientific and geographical knowledge during
the great eighteenth century voyages of discovery affected notions of identity both for Europeans and the Indigenous peoples
with whom they came in contact Not only did Smith s investigation of art science and imperialism of this period explore the
conditions of frontier contact it opened up the dialogue on de colonisation and allowed us to think beyond or after it He was
undoubtedly a pioneer of post colonialism and the book remains a lighthouse in pacific studies The republication of *European
Vision and the South Pacific* is an essential part of the discourse reframing the interconnections and crossing of cultural
boundaries between Europe and antipodean societies This new edition of a significant Australian classic also coincides with
the 250th anniversary of Cook s landing on the east coast of Australia and complements new scholarship on territorialisation

colonialism and the politics of exchange between metropolitan centres and peripheries A new introduction by Sheridan Palmer situates the book in a contemporary context Voyages of Discovery Lynne Withey,1989-01-18 Withey s book enthrallingly combines true adventure history and biography in the three Pacific voyages of Captain James Cook to show how in the second half of the 18th century popular interest in science and exploration merged to make possible unprecedented accomplishments Photographs Captain James Cook and the Explorers of the Pacific David Haney,1992 Examines the life and journeys of Captain Cook **Longitude and Empire** Brian W. Richardson,2010-10-01 Before Captain Cook s three voyages to Europeans the globe was uncertain and dangerous after it was comprehensible and ordered Written as a conceptual field guide to the voyages Longitude and Empire offers a significant rereading of both the expeditions and modern political philosophy More than any other work printed accounts of the voyages marked the shift from early modern to modern ways of looking at the world The globe was no longer divided between Europeans and savages but populated instead by an almost overwhelming variety of national identities Cook s voyages took the fragmented and obscure global descriptions available at the time and consolidated them into a single comprehensive textual vision Locations became fixed on the map and the people animals plants and artifacts associated with them were identified collected understood and assimilated into a world order This fascinating account offers a new understanding of Captain Cook s voyages and how they affected the European world view **Exploring the History of New Zealand Astronomy** Wayne Orchiston,2015-12-08 Dr Orchiston is a foremost authority on the subject of New Zealand astronomy and here are the collected papers of his fruitful studies in this area including both those published many years ago and new material The papers herein review traditional Maori astronomy examine the appearance of nautical astronomy practiced by Cook and his astronomers on their various stopovers in New Zealand during their three voyages to the South Seas and also explore notable nineteenth century New Zealand observatories historically from significant telescopes now located in New Zealand to local and international observations made during the 1874 and 1882 transits of Venus and the nineteenth and twentieth century preoccupation of New Zealand amateur astronomers with comets and meteors New Zealand astronomy has a truly rich history extending from the Maori civilization in pre European times through to the years when explorers and navigators discovered the region up to pioneering research on the newly emerging field of radio astronomy during WWII and in the immediate post war years A complete survey of a neglected but rich national astronomical history this does the subject full and comprehensive justice *Artistic Heritage in a Changing Pacific* Philip J. C. Dark,Roger G. Rose,1993-09-01 The great value of this work is the uniformly high quality of papers and their revelation of contemporary trends in Oceanic art research Ethnoarts *The Two Worlds of Omai* Auckland City Art Gallery,1977 *Catalog of Copyright Entries.
