Sunquist, 2013-09-15 This comprehensive introduction helps students pastors and mission committees understand contemporary Christian mission historically biblically and theologically Scott Sunquist a respected scholar and teacher of world Christianity recovers missiological thinking from the early church for the twenty first century He traces the mission of the church throughout history in order to address the global church and offers a constructive theology and practice for missionary work today Sunquist views spirituality as the foundation for all mission involvement for mission practice springs from spiritual formation He highlights the Holy Spirit in the work of mission and emphasizes its trinitarian nature Sunquist explores mission from a primarily theological rather than sociological perspective showing that the whole of Christian theology depends on and feeds into mission Throughout the book he presents Christian mission as our participation in the suffering and glory of Jesus Christ for the redemption of the nations *Mission as God's Spiral of Renewal* R. Ross, 2019-02-06 In this remarkable volume covering diverse subjects in a span of three decades Kenneth R Ross articulates his views on the meaning and practice of Christian mission and challenges the binary view of mission that prevailed before the 1950s He further reflects on Scotlands experiences in the world wide Christian mission and demonstrates the centrality of Africa in any discourse on Christianity This volume is invaluable in its argument for a rethinking of Christian mission especially in relation to the West which is now a new frontier for Christian mission The book will be immensely beneficial to students of missiology and general readers who are interested in the subject of Christian Mission Critical Readings in the History of Christian Mission Martha Frederiks, Dorottya Nagy, 2021-06-22 This selection of texts introduces students and researchers to the multi and interdisciplinary field of mission history It appries them with current discussions insights and theories The four parts of this book acquaint the readers with methodological considerations and recurring themes in the academic study of the history of mission Part one revolves around methods part two documents approaches while parts three and four consist of thematic clusters such as mission and language medical mission mission and education women and mission mission and politics and mission and art The text selection represents a wide variety of disciplines authors and backgrounds The texts were chosen because they address the complexities involved in studying the history of Christian mission *Critical Readings in the History of Christian Mission* is suitable for course work and other educational purposes **Capture These Indians for the Lord** Tash Smith, 2014-09-18 Exploring larger issues associated with western expansion this book details the history of the Southern Methodist Church in Indian Territory Oklahoma and the complex relationship between its white and Indian membership Provided by publisher The Crimean expedition, to the capture of Sebastopol, tr. by R.H. Gould César Lecat baron de Bazancourt, 1856 *Vulnerable Mission: Jim Harries*, 2011-06-28 Insights into Christian Mission to Africa From a Position of Vulnerability In this compendium Jim articulates the impact of the nature and shape of the interface between the West and

Africa and how that interface works or does not work Read on if you are interested in Africa mission development globalisation communication linguistics theology dependency or power dynamics in intercultural perspective The conclusions reached in the fourteen articles in this compendium endorse Jim s deepening conviction that some Western missionaries and development workers ought to engage in their ministries in Africa and the Majority World using indigenous languages and locally available resources To this end Jim and some of his missionary colleagues formed the Alliance for Vulnerable Mission in 2007

Transforming Missiology Fohle Lygunda li-M,2018-02-28 Dr Fohle Lygunda li M provides a thorough analysis of missiological teaching in theological institutions in Africa with special reference to ten Christian universities in the Democratic Republic of the Congo His detailed examination of current teaching of mission theory and practice builds a solid foundation for the articulation of a new paradigm of missiological education In this book Dr Lygunda presents the case for a transformed approach to raising up seminarians who are equipped to lead indigenous missional churches that will fulfil the Great Commission in their own communities and beyond their national borders
