The System of Antichrist Charles Upton,2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam Zoroastrianism and the Native American traditions It also speculates upon the social psychic and spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it And along the way he

describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet *Living with Miracles* D. Patrick Miller,2011-05-12 The first comprehensive guide to studying A Course in Miracles for readers at all levels of experience The channeled writings of A Course in Miracles have touched millions of lives And yet ACIM can be surprisingly difficult to navigate From its often complex concepts about the nature of the ego reality and love to the many intense surprising personal changes it can bring into readers lives ACIM presents a challenge for even the most motivated students Now D Patrick Miller the leading historical chronicler of ACIM and a highly respected authority on its teachings provides the definitive how to manual for engaging with ACIM His guide distills years of hard won insights and helps students navigate the sometimes intense experience *Living with Miracles* is designed to make even the novice comfortable when approaching ACIM Miller leads the reader through the most common emotions reactions and questions that arise when studying ACIM provides insights and tips about pacing yourself as well as when and how to take breaks from study and gives advice on working through early misconceptions and difficult later stages He also provides useful absorbing historical material stories from practitioners around the world who reflect honestly on their experiences and a resources section with ideas for those looking to continue their study of this remarkable spiritual teaching **A COURSE in MIRACLES for DUMMIES: Volume II** Thomas Wakechild,2011-09-01 The text of A Course in Miracles ACIM is difficult and mystifying for most readers Both teachers and students struggle for many years with little success in unlocking the secrets to understanding this Course They often abandon their studies and end up confused and discouraged This ACIM for Dummies series cuts thorough the mystery of the Course s esoteric text and makes Jesus message alive and accessible to the ordinary reader The richness and simplicity of ACIM s message of freedom joy and unconditional love awaits anyone who is willing to see things differently The Course states that Perception is a mirror not a fact Once decoded it provides the formula that transforms and empowers the reader so that they are both free and capable of seeing things differently You can exchange your fear based thought system for the peace of God Happiness is only a choice away and you can make that choice today This is your time to shine ACIM uses a unique terminology that references two different levels of being that are dominated by two opposing thought systems This book demystifies the text by replacing the pronouns and unclear references with their meanings and clarifies the appropriate level associated with each passage All antecedent references made to ACIM s second edition are clearly noted in bold print for easy reference to the original text Each text paragraph is then followed by an explanatory note to assist the reader in their own interpretation of the paragraph These notes are designed to foster discussion and clarity not to limit ideas and prevent individual interpretation As such ACIM for Dummies can be utilized as either a primary or secondary text for
