## **A Deleuzian Century:**

*A Deleuzian Century?* Ian Buchanan, 1999 A critical engagement with the writings on Gilles Deleuze by scholars and translators of his work Originally published as a special edition of SAQ Summer 1997 Vol 96 3 it is both an introduction to and a critique of his work

*This Deleuzian Century* Rosi Braidotti, Rick Dolphijn, 2014 Based on Deleuze's idea that philosophy is an activity that appeals to anyone who is attuned to the desire for the ethical life the contributions in this book question how to live the ethical life today in academia in art but above all in our multiple ecologies of belonging

**Deleuzism** Ian Buchanan, 2000 Answers the questions How should we read Deleuze and How should we read with Deleuze by showing us how his philosophy works

**Germinal Life** Keith Ansell-Pearson, Keith Ansell Pearson, 2012-10-12 Germinal Life is the sequel to the highly successful *Viroid Life* Where *Viroid Life* provided a compelling reading of Nietzsche's philosophy of the human Germinal Life is an original and groundbreaking analysis of little known and difficult theoretical aspects of the work of French philosopher Gilles Deleuze In particular Keith Ansell Pearson provides fresh and insightful readings of Deleuze's work on Bergson and Deleuze's most famous texts *Difference and Repetition* and *A Thousand Plateaus* Germinal Life also provides new insights into Deleuze's relation to some of the most original thinkers of modernity from Darwin to Freud and Nietzsche and explores the connections between Deleuze and more recent thinkers such as Adorno and Merleau-Ponty

*The Matrix of Visual Culture* Patricia Pisters, 2003 This book explores Gilles Deleuze's contribution to film theory According to Deleuze we have come to live in a universe that could be described as metacinematic His conception of images implies a new kind of camera consciousness one that determines our perceptions and sense of self aspects of our subjectivities are formed in for instance action images affection images and time images We live in a matrix of visual culture that is always moving and changing Each image is always connected to an assemblage of affects and forces This book presents a model as well as many concrete examples of how to work with Deleuze in film theory It asks questions about the universe as metacinema subjectivity violence feminism monstrosity and music Among the contemporary films it discusses within a Deleuzian framework are *Strange Days* *Fight Club* and *Dancer in the Dark*

*Essay and General Literature Index* Minnie Earl Sears, Marian Shaw, Dorothy Herbert West, 2003 Includes List of books indexed published also separately

*Science Fiction and the Prediction of the Future* Gary Westfahl, Wong Kin Yuen, 2014-01-10 Science fiction has always challenged readers with depictions of the future Can the genre actually provide glimpses of the world of tomorrow This collection of fifteen international and interdisciplinary essays examines the genre's predictions and breaks new ground by considering the prophetic functions of science fiction films as well as SF literature Among the texts and topics examined are classic stories by Murray Leinster C L Moore and Cordwainer Smith 2001 *A Space Odyssey* and its sequels Japanese anime and Hong Kong cinema and electronic fiction

*Oscar Wilde and the Simulacrum* Giles Whiteley, 2017-07-05 Oscar Wilde is more than a name more than an author From precocious Oxford undergraduate to cause celebre of the West End of the

1890s to infamous criminal the proper name Wilde has become an event in the history of literature and culture Taking Wilde seriously as a philosopher in his own right Whiteley's groundbreaking book places his texts into their philosophical context in order to show how Wilde broke from his peers and in particular from idealism and challenges recent neo historicist readings of Wilde which seem content to limit his irruptive power Using the paradoxical concept of the simulacrum to resituate Wilde's work in relation to both his precursors and his contemporaries Whiteley's study reads Wilde through Deleuze and postmodern philosophical commentary on the simulacrum In a series of striking juxtapositions Whiteley challenges us to rethink both Oscar Wilde's aesthetics and his philosophy to take seriously both the man and the mask His philosophy of masks is revealed to figure a truth of a different kind the simulacra through which Wilde begins to develop and formulate a mature philosophy that constitutes an ethics of joy

Applied Geography for the Entrepreneurial University Antoine Bailly, Lay James Gibson, Kingsley E. Haynes, 2008 Declines in public support for universities throughout the world have prompted administrators and policy makers to seek alternative funding One favored idea is the entrepreneurial university one that uses modern business practices including commercializing its intellectual property A related notion is the entrepreneurial professor who is willing to explore next commercial markets for his or her intellectual outputs Although these concepts for commercialization and partnerships with business and government are not always appreciated or embraced they are becoming more common particularly in the natural sciences engineering and medicine This book focuses on the field of geography and its potential in the entrepreneurial university The contributors also discuss how to encourage the acceptance of entrepreneurial faculty who move the work of academic geography into the world of commercial applications in industry government and nongovernmental sectors

**Postcolonial Theory and Psychoanalysis** Mrinalini Greedharri, 2008-04-30 Psychoanalytic theory has been the critical instrument of choice for colonial critics This book
