Keller, Lawrence G. Ritt, 1982 Abstract This volume of Innovations in clinical practice A 21st century sourcebook is organized into five sections that reflect the diversity of contributions to the series The first section Clinical Issues and Applications deals primarily with therapeutic concerns The various contributions however go beyond traditional therapeutic issues and also address important questions of assessment as well as treatment Issues that relate to a number of different types of clients and situations are covered The second section addresses Practice Management and Professional Development This section is included because of the increasing number of clinicians who work independently and require a

source of information on practice management ethical concerns and professional development issues We remain in a period of dramatic changes that affect the nature of our practices New risks as well as opportunities are constantly emerging in this era of health care reform In this section we try to address relevant issues that we believe will be of interest to our readers Some of our discussions here also should be of interest to students and clinicians who practice in organizations or agencies The third section includes Assessment Instruments and Client Handouts The assessment instruments are primarily informal and designed to assist clinicians in collecting information about clients Our goal is to publish screening instruments and forms that aid in the organization of data rather than the making of formal inferences There are some exceptions to this rule however we believe all fall within the bounds of accepted professional practice in the format in which they are presented The materials presented here should be useful to psychologists and other professionals with minimal potential for misuse We assume that readers will be thoroughly familiar with any disorders or processes that they attempt to evaluate and readers are advised to carefully review the introductory materials that accompany contributions to this section We also have included in this section two handouts for use with your clients The fourth section on Community Interventions reflects our view that mental health practitioners have much to offer in the community beyond traditional clinical services We trust that the material in this section will be of assistance to those who are interested in mental health consultation education prevention and expanding their services to reach new and broader populations The fifth section Selected Topics includes a variety of contributions that do not fit neatly into one of the other sections PsycINFO Database Record c 2019 APA all rights reserved
