System of Development

With reference to the writings of  
**Krishnamurti**

# Basic Self Knowledge

**Ernest Loomis**

## **Basic Self Knowledge:**

*Basic Self-Knowledge* Harry Benjamin, 1989 Consciousness begins with ourselves When we have basic self knowledge we can then break out of the molds of our everyday lives and conditioning and start to make contact with a deeper and far more satisfying level of life and understanding This basic introduction to self knowledge is based on the system of esoteric development introduced to the West by Gurdjieff with references to the writings of Krishnamurti The only way of affecting change in our lives is to start within Basic self knowledge is the key to becoming more responsible for the quality of our lives our future and ultimately our inner peace and happiness

**Basic Self-knowledge** Harry Benjamin, 1967 *Basic Self-knowledge* Harry Benjamin, 1971

**Basic Self-Knowledge** Harry Benjamin, 1988-01 In both Theosophic Mysticism and these commentaries and in the system of esoteric development expounded by Gurdjieff are the keys to the true meaning and purpose of existence To understand them is to gain freedom from self imprisonment from which we all suffer This book explores the essentials of this self knowledge and the basic theosophic pattern underlying Nicoll Gurdjief and Krishnamurti s teachings

**Controversies and Subjectivity** Pierluigi Barrotta, Marcelo Dascal, 2005-09-22 This collective volume focuses on two closely connected issues whose common denominator is the embattled notion of the subject The first concerns the controversies on the nature of the subject and related notions such as the concepts of I and self From both theoretical and historical viewpoints several of the contributors show how different and incompatible perspectives on the subject can help us understand today s world its habits style power relations and attitudes For this purpose use is made of insights in a broad range of disciplines such as sociology psychoanalysis pragmatics intellectual history and anthropology This interdisciplinary approach helps to clarify the multifaceted character of the subject and the role it plays nowadays as well as over the centuries The second issue concerns the subject in inter personal as well as in intra personal controversies The enquiry here focuses on the ways in which different aspects of the subject and subjective differences affect the conduct content and rationality of controversies with others as well as within oneself on a variety of topics Among such aspects the contributors analyse the subject s emotions cognitive states argumentative practices and individual and collective identity The interaction between the two issues the controversies on the subject and the subject of controversies sheds new light on the debate on modernity and its alleged crisis

**New Issues in Epistemological Disjunctivism** Casey Doyle, Joseph Milburn, Duncan Pritchard, 2019-04-29 This is the first volume dedicated solely to the topic of epistemological disjunctivism The original essays in this volume written by leading and up and coming scholars on the topic are divided into three thematic sections The first set of chapters addresses the historical background of epistemological disjunctivism It features essays on ancient epistemology Immanuel Kant J L Austin Edmund Husserl and Ludwig Wittgenstein The second section tackles a number contemporary issues related to epistemological disjunctivism including its relationship with perceptual disjunctivism radical skepticism and reasons for belief Finally the third group of essays extends the framework of epistemological disjunctivism to

other forms of knowledge such as testimonial knowledge knowledge of other minds and self knowledge Epistemological Disjunctivism is a timely collection that engages with an increasingly important topic in philosophy It will appeal to researches and graduate students working in epistemology philosophy of mind and philosophy of perception

**Grazer philosophische Studien** Johannes L. Brandl,2005

**Internal Affairs** K.L. Butler,2013-11-11 This book is not written for posterity It is meant to constitute part of my contribution to a continuing debate at the intersection of the philosophy of mind the philosophy of language epistemology and the philosophy of cognitive science The debate is over how mental states are individuated Many philosophers call them externalists or anti individualists believe that the individuation of mental states requires appeal to an individual's social and or physical environment I am not among them I am an internalist or individualist This book attempts to show that the leading proponents of externalism make a lot of mistakes in defending their view This is either because the view is false so any defense of it is bound to make some mistake or another or it is because the people defending externalism have not been very careful or both I have included some introductory material so that those not already familiar with the issues involved might nevertheless gain entry into the debate The intended audience however consists in those professional philosophers and students of philosophy who are already familiar with and interested in the question of how mental states are individuated I do not spend much time trying to motivate an interest in this issue Like all philosophy it is interesting and worthwhile if one is blessed or cursed with the appropriate kind of intellectual curiosity Those who do not meet this requirement proceed at their own risk

Expression and Self-Knowledge Dorit Bar-On,Crispin Wright,2023-09-12 Provides a timely and original contribution to the debate surrounding privileged self knowledge Contemporary epistemologists and philosophers of mind continue to find puzzling the nature and source of privileged self knowledge the ordinary and effortless first person knowledge we have of our own sensations moods emotions beliefs desires and hopes In *Expression and Self Knowledge* Dorit Bar On and Crispin Wright articulate their joint dissatisfaction with extant accounts of self knowledge and engage in a sustained and substantial critical debate over the merits of an expressivist approach to the topic The authors incorporate cutting edge research while defending their own alternatives to existing approaches to so called first person privilege Bar On defends her neo expressivist account addressing the objection that neo

expressivism fails to provide an adequate epistemology of ordinary self knowledge and addresses new objections levelled by Wright Wright then presents an alternative pluralist approach and Bar On argues in response that pluralism faces difficulties neo expressivism avoids Providing invaluable insights on a hotly debated topic in epistemology and philosophy of mind Expression and Self Knowledge Presents an in depth debate between two leading philosophers over the expressivist approach Offers novel developments and penetrating criticisms of the authors respective views Features two different perspectives on the influential remarks on expression and self knowledge found in Wittgenstein s later writings Includes four jointly written chapters that offer a critical overview of prominent existing accounts which provide a useful advanced introduction to the subject Expression and Self Knowledge is essential reading for epistemologists philosophers of mind and language psychologists with an interest in self knowledge and researchers and graduate students working in expression expressivism and self knowledge
