Basic Vivid Thinking Brown Landone,1996-09 **Blah Blah Blah** Dan Roam,2011-11-01 Ever been to so many meetings that you couldn't get your work done Ever fallen asleep during a bulletpoint presentation Ever watched the news and ended up knowing less Welcome to the land of Blah Blah Blah The Problem We talk so much that we don't think very well Powerful as words are we fool ourselves when we think our words alone can detect describe and defuse the multifaceted problems of today They can't and that's bad because words have become our default thinking tool The Solution This book offers a way out of blah blah blah It's called Vivid Thinking In Dan Roam's first acclaimed book *The Back of the Napkin* he taught readers how to solve problems and sell ideas by drawing simple pictures Now he proves that Vivid Thinking is even more powerful This technique combines our verbal and visual minds so that we can think and learn more quickly teach and inspire our colleagues and enjoy and share ideas in a whole new way The Destination No more blah blah blah Through Vivid Thinking we can make the most complicated subjects suddenly crystal clear Whether trying to understand a Harvard Business School class or what went down in the Conan versus Leno battle for late night TV or what Einstein thought about relativity Vivid Thinking provides a way to clarify anything Through dozens of guided examples Roam proves that anyone can apply this systematic approach from leftbrain types who hate to draw to right brainers who hate to write This isn't just a book about improving communications presentations and ideation it's about removing the blah blah blah from your life for good
