Canada-U.S. Tax Comparisons John B. Shoven,John Whalley,2007-12-01 In the increasingly global economy domestic
tax policies have taken on a new importance for international economics This unique volume compares the tax reform
experiences of Canada and the United States two countries with the world s largest bilateral flow of trade and investment
With the signing of the U S Canada Free Trade Agreement and the tax reforms of the 1980s there has been some
harmonization of tax systems But geographic cultural and political characteristics shape distinct national social policies that
may impede harmonization As the U S and Canadian economies become even more integrated differences in tax systems will
have important effects in particular on the relative rates of economic growth In this timely study scholars from both countries
show that while the United States and Canada exhibit similar corporate tax structures and income tax systems they have very
different approaches to sales tax and social security taxes Despite these differences the two countries generate roughly the
same amounts of revenue produce similar costs of capital and produce comparable distributions of income *Fiscal*
Federalism in Theory and Practice Mrs.Teresa Ter-Minassian,1997-09-10 Over the past few decades a clear trend has
emerged worldwide toward the devolution of spending and to a lesser extent revenue raising responsibilities to state and
local levels of government One view is that the decentralization of spending responsibilities can entail substantial gains in
terms of distributed equity and macroeconomic management The papers in this volume edited by Teresa Ter Minassian
examine the validity of these views in light of theoretical considerations as well as the experience of a number of countries
