Edition takes a contemporary approach to language learning by focusing on the development of functional competence as well as the expansion of cultural knowledge. The sixth edition of this bestselling communicatively based text for Russian has been updated by putting a greater focus on contemporary culture and simplified visual grammar explanations that will better engage students. The program also covers the basic morphology of Russian declension, case government, conjugation. The program has been a bestseller as a college Russian textbook through five editions since 1993. Following on from Golosa Book One, Golosa Book Two is divided into ten units, organized thematically.
