

BASIC BOXING PUNCHES

BEFORE YOU STEP IN THE RING, YOU SHOULD MASTER THESE BASIC BOXING PUNCHES.

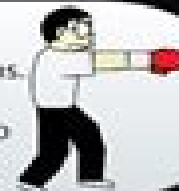

JAB

A quick, basic punch used to set up other shots, most often power punches. It can also be used to distract your opponent and create space.

CROSS

Can be used as a lead punch, a counterpunch, or in combinations. It's thrown by your rear hand, which moves across your body to hit the target.

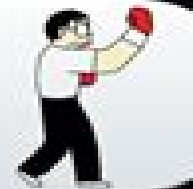

HOOK

One of the most powerful punches. Most of the power comes from the torso and legs, and since the approach is from the side - the opponent often doesn't see it coming.

UPPERCUT

A devastating punch to use at close range. It can deal excruciating damage under the chin.

Boxing Simplified Clarence E. Kennedy,1929 Abstract By diligently following the principles set forth in this book I am convinced that any mature person with ordinary intelligence and initiative can without previous ring experience become a capable teacher of boxing The book was primarily written to meet the requests of a number of boxing instructors many of them my former pupils who feel the need of such a handbook for their work It also arose from the suggestion of a neighbor boy who felt that a book of simplified tactics with illustrations in which the boxers were numbered and the drill counts given would enable a troop of Boy Scouts or any group of boys to learn boxing without an instructor Thus though designed for the professional teacher the book is also intended for the beginner who wishes to master the principles and technique of practical boxing How far it has succeeded in the latter aim is indicated by the comment of a father who on seeing it in manuscript declared that it was the book he had long looked for in order that he might enjoy roughing it with his boys in teaching them boxing And it is so simple said he that anyone can follow it This statement led to the title **BOXING SIMPLIFIED**
