Basketmaking In Ireland:

Basketmaking in Ireland Joe Hogan, 2001 **The Material Culture of Basketry** Stephanie Bunn, Victoria Mitchell, 2020-10-29 The Material Culture of Basketry celebrates basketry as a culturally significant skilled practice and as a theoretically rich discipline which has much to offer contemporary society While sometimes understudied and underappreciated it has much in common with mathematics and engineering art craft and design and can also act as a socially beneficial source of skill and care Contributors show how local knowledge of materials plants and place are central to the craft Case studies include the skill in weaverbird nest building challenging how we perceive learning in craft and nature an engineer s perspective on twining Peruvian grass bridges and the local knowledge embodied in Pacific plaited patterns and knots Photo essays explore materials and techniques from the point of view of artists anthropologists and mathematicians revealing how the structure and skill in basketwork illustrate a significant form of textile technology Thus the book argues that the textures patterns and geometric forms that emerge through basketwork reflect an embodied knowledge which expresses mathematical and engineering comprehension The therapeutic value of the craft is recognised through a selection of case studies which consider basketry as a healing process for patients with brain injury mental health problems and as a memory aid for people living with dementia This reclaims basketry s significant role in occupational therapy as an agent of recovery and well being Finally basketry s inherently sustainable nature is also considered demonstrating the continuation of basketry in spite of handwork s general decline and profiling new and recycled materials Above all the book envisages basketry as an intellectually rewarding means of knowing It presents the craft as embodying care for skilled making and for the social and natural environments in which it flourishes [Folktales of Newfoundland \(RLE Folklore\)](#) Herbert Halpert, J.D.A. Widdowson, 2015-02-20 This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province The intention was to collect as broad a spectrum of traditional material as possible and Folktales of Newfoundland is notable not only for the number and quality of its narratives but also for the format in which they are presented A special transcription system conveys to the reader the accents and rhythms of each performance and the endnote to each tale features an analysis of the narrator s language In addition Newfoundland has preserved many aspects of English and Irish folk tradition some of which are no longer active in the countries of their origin Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland the researchers set out to discover if this was in fact the case **Contemporary International Basketmaking** Mary Butcher, 1999 Exploring basketmaking s variety of form pattern and construction this volume questions the traditional boundaries and status of the technique from its anthropological influences and history to the effect it has had on contemporary craft and sculpture **Buy the Best of Ireland** Mary Jean Jecklin, Kelley V.
