

Methods Section

Outline of Minimum Requirements

Population (For many, this section establishes your gap; in that case, contrast with populations studied in foundational literature)

- ✓ Large public high school in a suburban setting; 4,480 students attend.
- ✓ Ethnicity – Diverse
- ✓ Income – Middle-income; Title 1; 4,480 = Free Lunch 1,564 = Reduced lunch Free/Reduced = 2,376 (53%)
- ✓ Gender – Co-ed
- ✓ Grades – All?, only seniors? Etc.
- ✓ Characteristics unique to your inquiry

Instrument(s) Consider using a table to communicate: (1) the questions asked (output), (2) response options offered (input), and (3) source of each question (e.g. self-defined, Lankins Study 2014)

- ✓ Instrument Tables should organize questions by categories of analysis, best if you draw these categories from your academic literature. Aligns your analysis with their analysis.
- ✓ Column headings can be simple “Survey Questions”, “Measurement Scale” (response options), and “Source”.
- ✓ Use these categories to organize your “Findings” and “Analysis of Findings” – This approach will add continuity to your paper.
- ✓ A good table covers most of this section’s communication needs. A few sentences discussing why you chose the specific sources to draw questions from.

Sample Selection Probably best to keep short and sweet. AP Stat students can go a little deeper but not too much detail is required here.

- ✓ Identify stratified random sample or cluster sample.
- ✓ Describe how strata or clusters were determined/defined. (e.g. strata = gate of entry for each student, Spanish classes = cluster)
- ✓ Should note that your selection method resulted in all members of the targeted population being equally likely to be chosen.
- ✓ Through this process, ___ students were identified to participate in the study.

Implementation (Avoid discussing sample selection here)

- ✓ Mechanical collection using student-issued Chrome Books.
- ✓ Delivery – Once a respondent was identified, an email . . . (or whatever you did to communicate with them – think output from you, input from them. Use terms response(s), and respondent(s))
- ✓ Data Processing – Data analyzed with Excel data analysis toolpaks including: histogram construction, univariate and bivariate data calculations, and p-value determination.

Method Section Of A Research Report

Burke Johnson, Larry Christensen

Method Section Of A Research Report:

Unveiling the Magic of Words: A Report on "**Method Section Of A Research Report**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Method Section Of A Research Report**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound affect on the souls of its readers.
