Law's Task Louis E.

Wolcher, 2016-04-22 What is the ultimate task of law This deceptively simple question guides this volume towards a radically original philosophical interpretation of law and justice Weaving together the philosophical jurisprudential and ethical problems suggested by five general terms thinking human suffering legal meaning time and tragedy the book places the idea of law s ultimate task in the context of what actually happens when people seek to do justice and enforce legal rights in a world that is inflected by the desperation and suffering of the many It traces the rule of law all the way down to its most fundamental level the existence of universal human suffering and how it is that law doers inflict or tolerate that suffering

Kant and the End of War Howard Williams, 2012-01-06 The paperback edition published in 2016 includes a new preface with a discussion of recent examples Kant stands almost unchallenged as one of the major thinkers of the European Enlightenment This book brings the ideas of his critical philosophy to bear on one of the leading political and legal questions of our age under what circumstances if any is recourse to war legally and morally justifiable This issue was strikingly brought to the fore by the 2003 war in Iraq The book critiques the tradition of just war thinking and suggests how international law and international relations can be viewed from an alternative perspective that aims at a more pacific system of states Instead of seeing the theory of just war as providing a stabilizing context within which international politics can be carried out Williams argues that the theory contributes to the

current unstable international condition The just war tradition is not the silver lining in a generally dark horizon but rather an integral feature of the dark horizon of current world politics Kant was one of the first and most profound thinkers to moot this understanding of just war reasoning and his work remains a crucial starting point for a critical theory of war today

Phenomena & Noumena Pauline Schiappa, 2018-04-10 Immanuel Kant 1724-1804 was an enlightenment philosopher who defined what is enlightenment For Kant enlightenment became humans dare to become wise Kant wrote many treatises based upon his minds ideas of humans ability to reason a moral society Kant addressed social notion that human moral thought was a moral imperative toward acquiring a worthy society Kant wrote a treatise on Noumena This book becomes a contemporary treatise relating earthly realities phenomena to the human minds innately known Noumena **Imagination: Cross-Cultural Philosophical Analyses** Hans-Georg Moeller, Andrew K. Whitehead, 2018-11-29 Imagination Cross Cultural Philosophical Analyses is a rare intercultural inquiry into the conceptions and functions of the imagination in contemporary philosophy Divided into East Asian comparative and post comparative approaches it brings together a leading team of philosophers to explore the concepts of the illusory and illusions the development of fantastic narratives and metaphors and the use of images and allegories across a broad range of traditions Chapters discuss how imagination has been interpreted by thinkers such as Zhuangzi Plato Confucius Heidegger and Nietzsche By drawing on sources including Buddhist aesthetics Daoism and analytic philosophy of mind this cross cultural collection shows how the imagination can be an indispensable tool for the comparative philosopher opening up new possibilities for intercultural dialogue and critical engagement **The educational theory of Immanuel Kant [selections] tr. and ed. by E.F.
