Because when we get to heaven you ll greet us with a smile With all the love that a family could give You ll always be with us
because in us you ll always live Go ahead and sleep Daddy but only for a while Because when we get to heaven I know you ll

There are two marriages in every marital union his and hers Men and women live in worlds that are organized around gender
and their marriages reflect differing realities As life companions they respond to each other but they also respond to the
cultural definitions of what it means to be a husband and a wife What has fascinated social and behavioral scientists for
several years however is not only that husbands and wives experiences are different but also that his marriage is better than
hers Numerous findings have reported that married men are better off than married women on measures of both physical
and mental health but the reasons are not yet fully understood In *Marriage in Men s Lives* Dr Nock proposes an explanation
to this issue He focuses on marriage as a system of rules customs and expectations The book shows that marriage changes
men on basic dimensions of achievement participation in public social life and philanthropy because marriage reinforces such
behaviors as part of adult masculinity Men in modern society crave well being comfort luxury and prestige and marriage
affords a means of achieving these things within circumscribed legitimate boundaries Using a huge data base of over 6 000
interviews with men the author has studied since 1979 Nock draws some interesting and far reaching conclusions about the
nature of marriage and predicts that marriage is definitely here to stay *The Parliamentary Debates (official Report)*.
