

SLICING MEAT AGAINST THE GRAIN

See these "lines" running along the meat? Those are grains or muscle fibers. You need to slice against them to avoid the meat being chewy.

Simply cut across them, cutting the grains into smaller pieces.

The Kitchen Whisperer

Once the meat has rested slice across or against the grains.

Theory Today Lois Tyson, 2006 This new edition of the classic guide offers a thorough and accessible introduction to contemporary critical theory It provides in depth coverage of the most common approaches to literary analysis today feminism psychoanalysis Marxism reader response theory new criticism structuralism and semiotics deconstruction new historicism cultural criticism lesbian gay queer theory African American criticism and postcolonial criticism The chapters provide an extended explanation of each theory using examples from everyday life popular culture and literary texts a list of specific questions critics who use that theory ask about literary texts an interpretation of F Scott Fitzgerald's *The Great Gatsby* through the lens of each theory a list of questions for further practice to guide readers in applying each theory to different literary works and a bibliography of primary and secondary works for further reading This book can be used as the only text in a course or as a precursor to the study of primary theoretical works It motivates readers by showing them what critical theory can offer in terms of their practical understanding of literary texts and in terms of their personal understanding of themselves and the world in which they live Both engaging and rigorous it is a how to book for undergraduate and graduate students new to critical theory and for college professors who want to broaden their repertoire of critical approaches to literature Wood Structure and Properties '02 Stanislav Kurjatko, 2002 **Against the Grain**

Richard Manning, 2005-02-01 In this provocative wide ranging book *Against the Grain* Richard Manning offers a dramatically revisionist view of recent human evolution beginning with the vast increase in brain size that set us apart from our primate relatives and brought an accompanying increase in our need for nourishment For 290 000 years we managed to meet that need as hunter gatherers a state in which Manning believes we were at our most human at our smartest strongest most sensually alive But our reliance on food made a secure supply deeply attractive and eventually we embarked upon the agricultural experiment that has been the history of our past 10 000 years The evolutionary road is littered with failed experiments however and Manning suggests that agriculture as we have practiced it runs against both our grain and nature s Drawing on the work of anthropologists biologists archaeologists and philosophers along with his own travels he argues that not only our ecological ills overpopulation erosion pollution but our social and emotional malaise are rooted in the devil's bargain we made in our not so distant past And he offers personal achievable ways we might re contour the path we have taken to resurrect what is most sustainable and sustaining in our own nature and the planet s **Samuel Butler against the Professionals** David Gillott, 2017-07-05 In the wake of the 2009 Darwin bicentenary Samuel Butler 1835 1902 is

becoming as well known for his public attack on Darwin's character and the basis of his scientific authority as for his novels Erewhon and The Way of All Flesh In the first monograph devoted to Butler's ideas for over twenty years David Gillott offers a much needed reappraisal of Butler's work and shows how Lamarckian ideas pervaded the whole of Butler's wide ranging oeuvre and not merely his evolutionary theory In particular he argues that Lamarckism was the foundation on which Butler's attempt to undermine professional authority in a variety of disciplines was based Samuel Butler against the Professionals provides new insight into a fascinating but often misunderstood writer and on the surprisingly broad application of Lamarckian ideas in the decades following publication of the Origin of Species
