**The Age of Chopin** Halina Goldberg, 2004-05-07 This multidisciplinary collection addresses Chopin's life and oeuvre in various cultural contexts of his era. Fourteen original essays by internationally known scholars suggest new connections between his compositions and the intellectual, literary, artistic, and musical environs of Warsaw and Paris. Individual essays consider representations of Chopin in the visual arts, reception in the United States and in Poland, analytical aspects of the mazurkas and waltzes, and political, literary, and gender aspects of Chopin's music and legacy. Several senior scholars represent the fields of American, Western European, and Polish history, Slavic literature, musicology, music theory, and art history.

**Chopin's Polish Ballade** Jonathan Bellman, 2010 Chopin's Polish Ballade examines the Second Ballade Op. 38 and how that work gave voice to the Polish cultural preoccupations of the 1830s using musical conventions from French opera and amateur piano music. This approach provides answers to several persistent questions about the work's form, programmatic content, and poetic inspiration.

**Dreams of Love** Ivan Raykoff, 2014 Dreams of Love pursues a wide-ranging interdisciplinary approach to understanding the concert pianist as a Romantic and seductive, even erotic figure in the popular imagination, focusing on the role of technology in perpetuating this mythology over the past two centuries through the touch, sights, and sounds of the pianist's playing.

**Mary Gladstone and the Victorian Salon** Phyllis Weliver, 2017-09-28 The daughter of one of Britain's longest-serving Prime Ministers, Mary Gladstone was a notable musician, hostess of one of the most influential political salons in late Victorian London, and probably the first female prime ministerial private secretary in Britain. Pivoting around Mary's initiatives, this intellectual history draws on a trove of unpublished archival material that reveals for the first time the role of music in Victorian liberalism, explores its intersections with literature, recovers what the high Victorian salon was within a wider cultural history, and shows Mary's influence on her father's work. Paying close attention to literary and biographical details, the book also sheds new light on Tennyson's poetry, George Eliot's fiction, the founding of the Royal College of Music, the Gladstone family, and a broad plane of wider British culture, including political liberalism and women's sociability, social theology, and aesthetic democracy.

**Musical Biography** Jolanta T. Pekacz, 2017-07-05 Musical biography has rarely been an object of theoretical and methodological reflection. Our present-day perception of the lives of prominent composers and performers of the past has been largely formed by cultural and political assumptions of nineteenth-century biographers and their twentieth-century followers. While older biographies are being scrutinized for veracity and updated with new evidence, their historiographical premisses and narrative techniques remain largely unchallenged. The epistemological upheavals in the humanities since the 1960s have generated a body of theoretical thought that has undermined many of the assumptions of traditional biography. Consequently, many of these assumptions have lost their hold as viable underpinnings for present-day scholarly biography. For example, the accumulation of facts is no longer believed to bring us closer to an understanding of the subject, nor are the traditional views of the unified self and the

self as a foundational idea taken for granted This volume brings together musicologists and historians who explore through individual case studies the rich potential of these new theories for writing musical lives The authors of this volume examine how the insights provided by these theories illuminate our critical reassessment of older biographies and the interpretations of musical works these biographies were used to construe and help forge new approaches to musical biography The authors also explore the functions musical biographies served in different historical contexts the relevance of biography for musical criticism the reliability of archival evidence the ethics of biography the demands placed on biography by feminist and gender history and the new possibilities offered by cinema The contributors to this volume challenge the view that biography has little importance for music history analysis and criticism Collectively they reassert biography's centrality and relevance and dem
