*Cruel Delight* James A Steintrager,2004-01-29 An important contribution to studies of eighteenth century culture and to literary history and theory and for those with an interest in horror sentimentality the invention of the modern individual and ethics of the human Daniel Cottom David A Burr Chair of Letters University of Oklahoma Cruel Delight Enlightenment Culture and the Inhuman investigates the fascination with joyful malice in eighteenth century Europe and how this obsession helped inform the very meaning of humanity Steintrager reveals how the understanding of cruelty moved from an inexplicable apparently paradoxical inhuman pleasure in the misfortune of others to an eminently human trait stemming from will and freedom His study ranges from ethical philosophy and its elaboration of moral monstrosity as the negation of sentimental benevolence to depictions of cruelty of children mistreating animals scientists engaged in vivisection and the painful procedures of early surgery in works such as William Hogarth s *The Four Stages of Cruelty* to the conflict between humane sympathy and radical liberty illustrated by the writings of the Marquis de Sade In each instance the wish to deny a place for cruelty in an enlightened world reveals a darker side a deep investment in depravity a need to reenact brutality in the name of combating it and ultimately an erotic attachment to suffering

Dana Och,Kirsten Strayer,2013-10-15 This volume investigates the horror genre across national boundaries including locations such as Africa Turkey and post Soviet Russia and different media forms illustrating the ways that horror can be theorized through the circulation reception and production of transnational media texts Perhaps more than any other genre horror is characterized by its ability to be simultaneously aware of the local while able to permeate national boundaries to function on both regional and international registers The essays here explore political models and allegories questions of cult or subcultural media and their distribution practices the relationship between regional or cultural networks and the legibility of international horror iconography across distinct media The book underscores how a discussion of contemporary international horror is not only about genre but about how genre can inform theories of visual cultures and the increasing permeability of their borders

**Meat, Mercy, Morality** Samiparna Samanta,2021-04-14 This book disentangles complex discourses around humanitarianism to understand the nature of British colonialism in India It contends that the colonial project of animal protection in late nineteenth century Bengal mirrored an irony Emerging notions of public health and debates on cruelty against animals exposed the disjunction between the claims of a benevolent Empire and a powerful imperial reality

where the state constantly sought to discipline its subjects both human and nonhuman Centered around stories of animals as diseased eaten and overworked the book shows how such contests over appropriate measures for controlling animals became part of wider discussions surrounding environmental ethics diet sanitation and the politics of race and class The author combines history with archive arguing that colonial humanitarianism was not only an idiom of rule but was also translated into Bengali dietetics anxieties vegetarianism and vigilantism the effect of which can be seen in contemporary politics of animal slaughter in India
