Crusaders and Crusading in the Twelfth Century Giles Constable, 2008 This volume brings together revised and up dated versions of Giles Constable s classic essays on crusading in the 12th century along with two major new studies on the cross of the crusaders and the Fourth Crusade and two excursuses on the terminology of crusading and the numbering of the crusades Together they show the range and depth of the crusading movement at that time and its influence on the broader history of the period

The Crusader States Malcolm Barber, 2012-08-02 An enriching account of the expansion of the political and cultural frontiers of the Latin West in the central Middle Ages History Today When the armies of the First Crusade wrested Jerusalem from control of the Fatimids of Egypt in 1099 they believed their victory was an evident sign of God s favor It was therefore incumbent upon them to fulfill what they understood to be God s plan to re establish Christian control of Syria and Palestine This book is devoted to the resulting settlements the crusader states that developed around the eastern shores of the Mediterranean and survived until Richard the Lionheart s departure in 1192 Focusing on Jerusalem Antioch Tripoli and Edessa Malcolm Barber vividly reconstructs the crusaders arduous process of establishing and protecting their settlements and the simultaneous struggle of vanquished inhabitants to adapt to life alongside their conquerors Rich with colorful accounts of major military campaigns the book goes much deeper exploring in detail the culture of the crusader states the complex indigenous inheritance the architecture the political legal and economic institutions the ecclesiastical framework through which the crusaders perceived the world the origins of the Knights Templar and the Hospitallers and more With the zest of a scholar pursuing a life long interest Barber presents a complete narrative and cultural history of the crusader states while setting a new standard for the term total history A Choice Outstanding Academic Title in the Western Europe Category Barber is a highly distinguished scholar whose touch is continually deft and he navigates the basis of the main narrative histories with care a delight to read Literary Review

The Crusades from the Perspective of Byzantium and the Muslim World Angeliki E. Laiou, Roy P. Mottahedeh, 2001 The essays in this volume demonstrate that on the eastern shores of the Mediterranean there were rich variegated and important phenomena associated with the Crusades and that a full understanding of the significance of the movement and its impact on both the East and West must take these phenomena into account

[Trade, Commodities and Shipping in the Medieval Mediterranean](#) David Jacoby, 2024-10-28 This fourth collection by David Jacoby focuses on Western economic expansion the Eastern Mediterranean during the 11th 15th centuries He is concerned to emphasize the interconnections linking the West Byzantium and the Levant and to examine normative sources for commercial activity

charters etc against the background of actual practice such as reflected in notarial documents The articles deal with the evolution of urban centres the trade in raw materials and at the same time questions of technology transfer and the mobility of merchants and craftsmen Particular attention is given to the silk trade the author argues that demographic expansion in the Byzantine world as in the West stimulated economic growth and demand for silk led to the emergence of a market driven industry in Byzantium

Fortification and Settlement in Crusader Palestine Denys Pringle, 2023-06-14 These studies examine the physical remains of Frankish settlement in Palestine in the 12th and 13th centuries In recent years the view that Frankish settlement was largely confined to the fortified urban centres and castles with few westerners venturing into the open countryside has come to be challenged in the light of new archaeological evidence and re examination of the sources The present studies contribute to an understanding of the nature of Frankish settlement by illustrating aspects of the relationship between fortification and settlement in particular the role of castles and towers in promoting settlement and providing both security and domestic accommodation the relationship between castles towers and other semi fortified rural structures the physical planning of the new towns established by the canons of the Holy Sepulchre the measures undertaken to defend urban settlements and the contribution that town walls and castles made to the security of the kingdom

The Crusades and the Christian World of the East Christopher MacEvitt, 2010-11-24 In the wake of Jerusalem's fall in 1099 the crusading armies of western Christians known as the Franks found themselves governing not only Muslims and Jews but also local Christians whose culture and traditions were a world apart from their own The crusader occupied swaths of Syria and Palestine were home to many separate Christian communities Greek and Syrian Orthodox Armenians and other sects with sharp doctrinal differences How did these disparate groups live together under Frankish rule In *The Crusades and the Christian World of the East* Christopher MacEvitt marshals an impressive array of literary legal artistic and archeological evidence to demonstrate how crusader ideology and religious difference gave rise to a mode of coexistence he calls rough tolerance The twelfth century Frankish rulers of the Levant and their Christian subjects were separated by language religious practices and beliefs Yet western Christians showed little interest in such differences Franks intermarried with local Christians and shared shrines and churches but they did not hesitate to use military force against Christian communities Rough tolerance was unlike other medieval modes of dealing with religious difference and MacEvitt illuminates the factors that led to this striking divergence It is commonplace to discuss the diversity of the Middle East in terms of Muslims Jews and Christians MacEvitt writes yet even this simplifies its religious complexity While most crusade history has focused on Christian Muslim encounters MacEvitt offers an often surprising account by examining the intersection of the Middle Eastern and Frankish Christian worlds during the century of the First Crusade

Conference, 1985* The Crusader, 1922 Crusader Warfare David Nicolle, 2007 This book is an in depth and fascinating study of warfare during the period of the Crusades To a large extent the current interest in the Crusades reflects the perceived threat of a so called clash of civilizations While warnings of such a supposed clash in our own times are based upon a misunderstanding of the natures of both Western and Islamic civilizations some now look to the medieval Crusades as an earlier example of such conflict In reality they were no such thing Instead the Crusades resulted from a remarkable variety of political economic cultural and religious factors The Crusades involved an extraordinary array of states ruling dynasties ethnic or linguistic groups and the vast forces associated with these disparate participants **A History of the Crusades: The impact of the Crusades on Europe, edited by Harry W.
