Kant, Wittgenstein, and the Performativity of Thought Aloisia Moser,2021-08-18 This book explores the idea that there is a certain performativity of thought connecting Kant's Critique of Pure Reason and Wittgenstein's Tractatus Logico Philosophicus On this view we make judgments and use propositions because we presuppose that our thinking is about something and that our propositions have sense Kant's requirement of an a priori connection between intuitions and concepts is akin to Wittgenstein's idea of the general propositional form as sharing a form with the world Aloisia Moser argues that Kant speaks about acts of the mind not about static categories Furthermore she elucidates the Tractatus logical form as a projection method that turns into a so called zero method whereby propositions are merely the scaffolding of the world In so doing Moser connects Kantian reflective judgment to Wittgensteinian rule following She thereby presents an account of performativity centering neither on theories nor methods but on the application enacting them in the first place

Advances in Child Development and Behavior ,1973-03-23 *Advances in Child Development and Behavior* Franklin Square Song Collection ,1887 Tender Reflections Esther Alice Kelley,2010-04-19 This book is a compilation of my thoughts about things that over the last sixty years I have found are essential to a happy and fulfilling life We often forget that things we possess are not what makes life worth living but the people we love and that love us and our love and reverence to God bring us the most joy *Private Fleming at Chancellorsville* Perry Lentz,2006 What intelligent person has never pondered the meaning of life For Yuval Lurie this is more than a puzzling philosophical question it is a journey and in this book he takes readers on a search that ranges from ancient quests for the purpose of life to the ruminations of postmodern thinkers on meaning He shows that the question about the meaning of life expresses philosophical puzzlement regarding life in general as well as personal concern about one's own life in particular Lurie traces the emergence of this question as a modern philosophical quandary riddled with shifts and turns that have arisen over the years in response to it Tracking the Meaning of Life is written as a critical philosophical investigation stretching over several traditions such as analytic philosophy phenomenology and existentialism It maps out a journey that explores pivotal responses to this question drawing especially on the thought of Tolstoy Wittgenstein Sartre and Camus and exploring in depth the insights these thinkers offer regarding their own difficulties concerning the meaning of life In the book's four sections Lurie discusses Tolstoy's challenge to experience the religious and transcendental meaning of life by choosing a simple hardworking existence Wittgenstein's focus on ethics and discovering the sense of the world his conclusion that the question of the meaning of life makes no sense and his turning to experience the mystical aspect of the world Sartre's positing of freedom as the basis of human life stipulating a personal answer to the question of the meaning of life and Camus' view of the absurdity of life unalleviated by any personal meaning Guided by these views Lurie imparts new insight to ideas that underlie our

concern with life's meaning such as the difference between attitudes toward life and beliefs and opinions about life the meaning of words versus the meaning of events shared meanings versus personal meanings and the link between ethics and personal identity Tracking the Meaning of Life is no mere dry philosophical study but a journey that dramatically illustrates the poignancy of the quest for meaning showing that along the way it gradually becomes more obvious how personal meaning may be found in the pulsations of everyday life The book offers stimulating reading not only for scholars in philosophy but also for general readers who wish to see how their personal concerns are echoed in modern philosophical thought More than a description of a journey it is a map to anxieties and puzzlements we all face pointing to ideas that can guide readers on their own search for meaning
