## **A Step In Faith:**

A Step of Faith Richard Paul Evans, 2013-05-07 Following the New York Times bestseller *The Road to Grace* Richard Paul Evans's hero Alan Christoffersen faces a life-changing crisis on his journey of redemption and faith. After the death of his beloved wife after the loss of his advertising business to his once-trusted partner, after bankruptcy forced him from his home, Alan Christoffersen is a broken man. Leaving everything he knows, he sets out on an extraordinary cross-country walk from Seattle to Key West, the end of the map. Along the way, Alan begins to heal, meeting people who teach him lessons about forgiveness, second chances, and love. But in St. Louis, Alan faces another life-changing crisis, a turning point that tests his faith and reveals the meaning of personal growth and redemption.

*The Step of Faith* William Andrews, 2020-01-07 What do you think of when you hear the phrase Step of Faith? Taking steps of faith is essential in the daily life of every believer. Why is faith important? Because without faith, it is impossible to please our Maker. God requires each of us to have faith in Him; faith in God is righteousness. Each of us feels a sense of familiarity and divinity when others speak our primary faith language. If man is indeed made in the image of God, then we should expect to find faith languages expressed in the character and nature of God. In this faith-filled book, you will discover how God is still working miracles in our time. True life testimonies demonstrate how to apply faith in our daily walk with God.

Steps, Faith to Reason William C. White, 2009-10-26 For centuries, books have changed lives. Some even improved lives. This book provides an historical sketch of mankind's path during the past four millennia, with a focus on mankind's use of faith and reason as faculties to guide life. Along this path, there have been endless efforts to guide human lives; some even sought to reduce the brutishness of humans. Among the early efforts to encourage civility in human behavior were tenets, doctrines of faith-based religions. With faith as used in this copy, one accepts without question doctrines and tenets of a religion. Later, along mankind's path, reason developed as a faculty enabling one to question, to seek truths, and to use integrity, ethics, and morality to do what is right. As in any path, there are increments of progress, steps which serve as landmarks along the way. Reason with rational thinking got a foothold in the second millennium BCE, beginning a transfer by mankind in using reason rather than faith as a faculty to guide human life. The text describes some of the more progressive landmark steps by 11 historical figures in the path of mankind, illustrating advantages of reason as a faculty to guide one's life. Many instances could mark the beginning of this path, but the one selected for the copy is the story of Abraham. With this person beginning in Mesopotamia, the path traverses westward to the life of Thomas Paine in Paris, London, and Philadelphia. The objective in this copy is to help the reader comprehend these progressive steps in utilizing reason rather than faith as a faculty to guide one's life and to correct intolerance, injustice, and other brutishness of humanity. Relevant historical information on the notable humans taking these steps and on their times hopefully will provide useful illumination for the steps described. White examines how men from Abraham and Seneca to Voltaire and Thomas Paine helped establish the use of reason rather than faith as a guide for mankind.
