A Students Guide To Intellectual Work:

A Student's Guide to Intellectual Work Jean Guitton, 1964 Rival auto manufacturers boast of the low fuel consumption records racked up by their machines In its aim Jean Guitton s work corresponds to that of the auto manufacturers he too is concerned with economy but in his case it is that intellectual economy achievable through streamlined methods of thinking reading and writing At one time or other all people engaged in intellectual pursuits are confronted by the proper way to do a thing Students especially who have not yet learned their own capacities are easily baffled and frustrated when a teacher asks them to re do a paper for example How is the question And even seasoned thinkers often discover that the process of working which they have evolved from trial and error does not meet every new need It is this gap in understanding how to think how to study how to write etc that the present work strives to fill M Guitton writes in a refreshing informal style that cloaks but does not hide the insights with which a lifetime of teaching acute powers of observation and a profound sympathy for the problems of students have armed him Back cover
