## **African Inheritance:**

**The African Inheritance** Ieuan Ll. Griffiths, 2005-09-30 Examines the effect of Africa's colonial past on the present political and economic well being of the continent The consequences of such an inheritance are discussed small and weak states destructive movements and African imperialism

**The African Inheritance** Ieuan Ll. Griffiths, 2005-09-30 Africa is a continent gripped by civil wars and widespread famine The causes of many of the continent's problems are deep rooted and can be traced to Africa's colonial past when European powers divided the spoils of the continent into separate sovereign states The African Inheritance examines the effect this balkanization of Africa has had and is having on the political and economic well being of the continent From a brief history of pre colonial Africa and its subsequent European partition and inevitable decolonization the book discusses the consequences of such an inheritance small and weak states destructive secessionist movements irredentism and African imperialism Attempts to tackle these problems and assert independent development are inhibited by the colonial inheritance

The Doctrine of God in African Christian Thought James Henry Owino Kombo, 2007-05-30 The Christian faith knows and worships one God who is revealed in the Son and in the Holy Spirit This is the meaning of the doctrine of the Trinity in Christian thought Although Christian orthodoxy defines the doctrine of the Trinity the intellectual tools used to capture it significantly vary At different times and in different places Western Christianity has for instance used neo Platonism German Idealism and the conceptual tools of the second century Greeks Taking elements from the known African intellectual framework this book argues that for African Christians the respective pre Christian African understanding of God and the Ntu metaphysics in particular function as conceptual gates for an attempt towards articulating the Trinity for African Christian audiences

*The Human Cost of African Migrations* Toyin Falola, Niyi Afolabi, 2007-11-13 In an era of globalization population growth and displacements migration is now a fact of life in a constantly shifting economic and political world order This book contributes to the discourse on the beneficiaries benefactors and the casualties of African displacement While the few existing studies have emphasized economic motivation as the primary factor triggering African migration this volume treats a range of issues economic socio political pedagogical developmental and cultural Organized with a multidisciplinary thrust in mind this book argues that any discussion of African migration whether internal or external must be conceived as only one aspect of a more complex organic and global patterning of flux and reflux necessitated by constantly shifting dynamics of world socio economic cultural and political order

Tradition, Culture and Development in Africa Ambe J. Njoh, 2006 By linking culture and tradition with socio economic development this book breaks new ground in the discourse on development It highlights the differences between Euro centric and African culture where concepts such as capital accumulation entrepreneurial attitudes and material wealth are not top priority In doing so it dispels popular myths stereotypes and distortions as well as discounting misleading accounts about major aspects of African culture and traditional practices
