Britain's Caribbean colonies in the emergence of population as a political problem. The need to manipulate the labor market on Caribbean plantations led to the creation of new governmental strategies for managing sex and childbearing such as centralized nurseries, discouragement of extended breastfeeding, and financial incentives for childbearing that have become commonplace in our modern world. While assessing the politics of reproduction in the British Empire and its Caribbean colonies in relationship to major political events such as the Haitian Revolution, the study also focuses on the island of Barbados. The remarkable story of an enslaved midwife and her family illustrates how plantation management policies designed to promote fertility affected Afro-Caribbean women during the late eighteenth and early nineteenth centuries. *The Politics of Reproduction* draws on a wide variety of sources including debates in the British Parliament and the Barbados House of Assembly, the records of Barbadian plantations, tracts about plantation management published by doctors and plantation owners, and missionary records related to the island of Barbados. *Freedom After Slavery* Lavonne Jackson Leslie Ph. D., LaVonne Jackson Leslie, 2013. *Freedom After Slavery: The Black Experience and the Freedmen's Bureau in Texas* provides a historical study of slavery and emancipation in Texas with emphasis on the lives of slaves and freedpeople during their transition to freedom. It reveals a first-hand account of the experiences of slaves as they refashion their lives in the midst of formidable challenges. Though services of the Freedmen's Bureau freed slaves in Texas made significant adjustments in their communities. **The Meaning Of Freedom** Frank McGlynn, Seymour Drescher, 1992-05-15. In this interdisciplinary study, scholars consider the aftermath of slavery focusing on Caribbean societies and the southern United States. What was the nature and impact of slave emancipation? Did the change in legal status conceal underlying continuities in American plantation societies? Was there a common postemancipation pattern of economic development? How did emancipation affect the politics and culture of race and class? This comparative study addresses precisely these types of questions as it makes a significant contribution to a new and growing field. *Degrees of Freedom* Rebecca J. Scott, 2009-06-30. As Louisiana and Cuba emerged from slavery in the late nineteenth century, each faced the question of what rights former slaves could claim. *Degrees of Freedom* compares and contrasts these two societies in which slavery was destroyed by war and citizenship was redefined through social and political upheaval. Both Louisiana and Cuba were rich in sugar plantations that depended on an enslaved labor force. After abolition on both sides of the Gulf of Mexico, ordinary people—cane cutters and cigar workers, laundresses, and labor organizers—forged alliances to protect and expand the freedoms they had won. But by the beginning of the twentieth century, Louisiana and Cuba diverged sharply in the meanings attributed to race and color in public life and in the boundaries placed on citizenship. Louisiana had taken the path of disenfranchisement and state-mandated racial segregation; Cuba had enacted universal manhood suffrage and had seen the emergence of a transracial conception of the nation. What might explain these differences? Moving through the cane fields, small farms, and cities of Louisiana and Cuba, Rebecca Scott skillfully observes the people, places, legislation, and leadership that shaped how these societies adjusted to the

abolition of slavery The two distinctive worlds also come together as Cuban exiles take refuge in New Orleans in the 1880s and black soldiers from Louisiana garrison small towns in eastern Cuba during the 1899 U S military occupation Crafting her narrative from the words and deeds of the actors themselves Scott brings to life the historical drama of race and citizenship in postemancipation societies
