Gallery of Ontario, 2001 Rubens was the most important and creative Flemish artist of the seventeenth century an era noted
for the internationalism of its art As political and cultural barriers fell Rubens and his contemporaries including Van Dyck
and Brueghel travelled throughout Europe working for a wide variety of patrons that included the different European courts
the Church and the most prominent private collectors of the age Catherine the Great of Russia sent advisers throughout
Europe in search of the most prestigious art collections with the result that the State Hermitage Museum in St Petersburg is
filled with examples of paintings drawings and the decorative arts from Antwerp where Rubens and his circle formed a close
knit artistic community the hub of a network of influence that spanned the Continent Rubens and his Age presents the jewels
of the Hermitage s collection many of them never before published including Rubens s monumental allegory The Union of
Earth and Water as well as a remarkable selection of objects d art some of which were either owned designed or
commissioned by Rubens himself This book represents an unprecedented opportunity to explore one of the world s finest
collections of European art **Rubens and His Age** Marianne Haraszti-Takács, 1972 The Age of Rubens Robert
Malcolm Smuts, L. Duerloo, 2016 Using the career of Peter Paul Rubens as an organizing thread this conference proceeding
examines the complex relationships between diplomacy dynastic politics and the visual arts during the early part of the
Thirty Years War What role did exchanges of art and artists play in the diplomacy of this period How did these exchanges
contribute to the development of international formulas for the visual representation of power and glory To what extent had
dynastic alliances and diplomacy created a shared visual language of power and authority throughout much of Europe as
opposed to distinctive national dynastic or even personal formulas favored by particular patrons What similarities and
dissimilarities can we detect by comparing the relationship between high politics and the visual arts in different European
courts By addressing these and other related questions ot only Rubens s own work is illuminated but also the interplay
between international dynastic politics and the visual language of power more generally during a critical fifteen year period
