

# THE BLUE BOOK

## ON INFORMATION AGE INQUIRY, INSTRUCTION AND LITERACY

DANIEL CALLISON AND LESLIE FREDDY

---

Based on many years of columns from *School Library Media Activities Monthly*, authors Daniel Callison and Leslie Freddy present key terms in a working theoretical model that may be used in developing and understanding the power of information inquiry in instruction. This book is both a revision and an update to *Key Words, Concepts and Methods for Information Age Instruction* (LMS Associates, 2003). New columns from *School Library Media Activities Monthly* are included and entirely new Key Words for Instruction are introduced. These key terms have immediate value for staff development purposes. They are reproducible and will be useful in building year-long study group programs in schools and libraries or as weekly discussion handouts. An entirely new section on Inquiry has been added. An in-depth and invaluable section of resources and Web sites has been updated.

In addition to the theoretical base, the authors include much practical instructional application for immediate use. Like one-stop shopping, *The Blue Book on Information Age Inquiry, Instruction and Literacy* is the new definitive work on information inquiry and information literacy instruction. The authors have thoughtfully blended theories in education and library science in a book that finally gives us a picture of the vital role of the school library media specialist who needs to understand, interpret and instruct students in the skill of inquiry, the basis of all learning.

This is a must-have for all library and information literacy programs K-12, as well as for school library educators.
