When Worry Works Dana Dorfman, 2023-02-13 Helps parents manage the stresses of adolescent achievement culture and to make decisions which align with their values rather than their anxiety WHEN WORRY WORKS responds to one of the primary sources of the nation's worsening adolescent mental health crisis achievement pressure Burdened by the mounting pressures on today's youth parents seek ways to strike the balance between supporting their teens current well being while also setting them up for future success Eager to take action and to manage their escalating fears parents inadvertently and unknowingly exacerbate the problem by overlooking their own parental achievement anxiety Based on thirty years of clinical practice and her experiences raising her own teenagers in New York City the work demonstrates that when parents become aware of their individual anxieties and learn to effectively manage them they are empowered to make values aligned rather than worry driven parenting decisions Dr Dorfman provides practical evidence based parenting strategies exercises and reflective prompts to guide parents through a process to constructively apply to their day to day parenting decisions

Foot Patrol Jerry H. Ratcliffe,Evan T. Sorg,2017-10-02 This Brief reviews the history of foot patrol and the recent research driven resurgence of foot patrol in places such as Philadelphia It summarizes and critiques existing literature on the subject examining the efficacy of foot patrol At the time the Philadelphia Foot Patrol Experiment was published popular opinion about foot patrol was that it might improve community perception of police and reduce fear of crime but it did not have a concrete crime prevention benefit The Philadelphia Experiment represented a major examination of this concept involving over 200 officers in 60 locations over a two year period in some of the highest violent crime areas of Philadelphia The results suggested that a targeted hot spots oriented foot patrol strategy did contribute to violent crime reduction Four years later the lead author of that seminal experiment explores its findings together with the findings of the Philadelphia Policing Tactics Experiment and examines their differences This work also explores officer experiences with foot patrol This Brief concludes with policy recommendations about foot patrol when and how to implement it and the benefits it can add to a police department This Brief will be of interest to researchers in Criminology and Criminal Justice particularly with an interest in Police Studies and related fields such as sociology and public policy It will also be of interest to practitioners and policy makers interested in evidence based policing
