David Roberts,2002-08-07 In 1830 the dominant social outlook of the early Victorians was a paternalism that looked to property the Church and local Justices of the Peace to govern society and deal with its ills By 1860 however the dominant social outlook had become a vision of a laissez faire society that relied on economic laws self reliance and the vigorous philanthropy of voluntary societies This book describes and analyzes these changes which arose from the rapid growth of industry towns population and the middle and working classes Paternalism did not entirely fade away however just as a laissez faire vision had long antedated 1830 Both were part of a social conscience also defined by a revived philanthropy a new humanitarianism and a grudging acceptance of an expanded government all of which reflected a strong revival of religion as well as the growth of rationalism The new dominance of a laissez faire vision was dramatically evident in the triumph of political economy By 1860 only a few doubted the eternal verities of the economists voluminous writings Few also doubted the verities of those who preached self reliance who supported the New Poor Law s severity to persons who were not self reliant and who inspired education measures to promote that indispensable virtue If economic laws and self reliance failed to prevent distress the philanthropists and voluntary societies would step in Such a vision proved far more buoyant and effective than a paternalism whose narrow and rural Anglican base made it unable to cope with the downside of an industrial urban Britain But the vision

of a laissez faire society was not without its flaws Its harmonious economic laws and its hope in self reliance did not prevent gross exploitation and acute distress and however beneficent were its philanthropists they fell far short of mitigating these evils This vision also found a rival in an expanded government Two powerful ideas the idea of a paternal government and the idea of a utilitarian state helped create the expansion of government services A reluctant belief in governmental power thus joined the many other ideas that defined the Victorian s social conscience The Labouring Classes in Early Industrial
