*The World of Final Fantasy VII* Jason C. Cash, Craig T. Olsen, 2023-02-03 Final Fantasy VII altered the course of video game history when it was released in 1997 on Sony's PlayStation system. It converted the Japanese role playing game into an international gaming standard with enhanced gameplay, spectacular cutscenes, and a vast narrative involving an iconic cast. In the decades after its release, the Final Fantasy VII franchise has grown to encompass a number of video game sequels, prequels, a feature length film, a novel, and a multi-volume remake series. This volume, the first edited collection of essays devoted only to the world of Final Fantasy VII, blends scholarly rigor with fan passion in order to identify the elements that keep Final Fantasy VII current and exciting for players. Some essays specifically address the game's perennially relevant themes and scenarios ranging from environmental consciousness to economic inequity and posthumanism. Others examine the mechanisms used to immerse the player or to improve the narrative. Finally, there are several essays devoted specifically to the game's legacy from its influence on later games to its characters, many crossovers, and cameos.

*Earth Polyphony* Suhasini Vincent, 2024-02-19 In *Earth Polyphony*, Suhasini Vincent analyzes the theory of ecocriticism in its entirety and its existence in the global paradigm of climate change. Vincent shows how a polyphony of voices can affect law and decision making in the era of the Anthropocene and aptly shows how voices can coexist as in Bakhtinian polyphony where multiple perspectives coexist despite contradictions and differences. Vincent argues that both material and non-material worlds are endowed with storied forms of knowledge that prompt ecocritical writers to engage in new experimental modes of expression. She explores the material turn, the animal turn, and the narrative turn to highlight how law meets literature, prompts eco-activism, and how these crisscrossing narratives influence each other to spark judicial activism in forums around the planet.

*The Edson-Laing Readers. Book One* Mary Elizabeth Laing, Andrew Wheatley Edson, 1918

**Sound: A Reader in Theatre Practice** Ross Brown, 2009-11-27 Brown explores relationships between sound and theatre focusing on sound's interdependence and interaction with human performance and drama. Suggesting different ways in which sound may be interpreted to create meaning, it includes key writings on sound design as well as perspectives from beyond the discipline.

*The Second Coming of Jesus* George Floyd Taylor, 1916

*Staging Conventions in Medieval English Theatre* Philip Butterworth, 2014-06-26 Examines staging conventions in the medieval English theatre and ways in which they conditioned the reactions of the audience.

*Maiden to Mother* Sarah Durham Wilson, 2022-06-07 The bridge from Maiden to Mother has been broken. When the goddess culture was stolen and buried, so too were women's rites of passage into our wild, intuitive femininity and maturity. With *Maiden to Mother*, Sarah Durham Wilson excavates these ancient rites, guiding us through a sacred and crucial initiation from the immature Maiden into the archetypal Mother, the powerful, safe, compassionate, full-bloom feminine life force that exists within all of us. Becoming the Mother is every woman's birthright, regardless of whether or not she raises children. The Mother is who we

needed as a child who we were meant to be in this life and who the world needs us to be now Wilson teaches that while pre-patriarchal cultures honored women's natural cycles today's society infantilizes women idolizing youthful traits such as pretty pleasing and polite in order to keep us distracted and dependent While a healthy version of the Maiden will always remain part of us there comes a time when we must no longer let her wounds and immaturity guide our lives We must step into our mature feminine fullness In this journey you will travel with Inanna the ancient Sumerian goddess who ventured through the Underworld to meet her severed dark sister and emerged fully integrated and empowered giving us an archetypal map to inner strength and wholeness Through personal stories rituals teachings and practices Wilson helps women heal the Mother Wound and dismantle our internalized patriarchy with its false constricting standards for the feminine so we may live with authenticity and feast on the richness of life Midlife is not as our culture proposes where a woman's power ends writes Wilson but where it really begins

### **Critical Multimodal Studies of Popular Discourse**

Emilia Djonov, Sumin Zhao, 2013-09-23 Studies of multimodality have significantly advanced our understanding of the potential of different semiotic resources verbal visual aural and kinetic to make meaning and allow people to achieve various social purposes such as persuading entertaining and explaining Yet little is known about the role that individual nonverbal resources and their interaction with language and with each other play in concealing and supporting or drawing attention to and subverting social boundaries and inequality political or commercial agendas This volume brings together contributions by prominent and emerging scholars that address this gap through the critical analysis of multimodality in popular culture texts and semiotic practices It connects multimodal analysis to critical discourse analysis demonstrating the value of different approaches to multimodality for building a better understanding of critical issues of central interest to discourse analysis semiotics applied linguistics education cultural and media studies

### Ecology and Literatures in English Françoise

Besson, 2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare's theatre to ecopoetics from travel writing to detective novels from children's books to novels all literary genres show that literature

responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts
