911 Targa Chassis and Suspension 4

4 Chassis and Suspension

General

The running gear of the 911 Targa is based largely on that of the regular 911. Changes for the 2002 model year show modifications that had to be carried out as a result of the different vehicle weight.

The 911 Targa is offered in different suspension versions. They include the Standard, Sport and full suspension. Only the changes compared with the suspension versions of the 911 series for the 2002 model year are described in this section.

Front Suspension

4065 Springs

In the Standard and Sport versions the 911 Targa is equipped with the springs from the 911 Cabriolet. The specification criteria are retained until the country-specific springs (order to the Standard and Sport suspension version).

The springs are color-coded to distinguish them.

4077 Torsy Bar

The torsy bars were modified to suit driving characteristics. Torsy bars of two different diameters are used, which are installed in the corresponding suspension version.
