

My First Number Skills

For ages
3-5

$2 + 1 = 3$

$4 - 2 = 2$

The worksheet features two math problems. The first problem shows a large yellow number 2 with a dotted line and an arrow indicating the stroke direction, followed by a red plus sign, a yellow number 1 with a dotted line and arrow, a red equals sign, and a large yellow number 3 with a dotted line and arrow. The second problem shows four yellow and orange striped circles, a red minus sign, two green apples, a red equals sign, and a large yellow number 2 with a dotted line and arrow. A purple octopus is positioned above the first problem, and a hand holding a yellow pencil is pointing to the worksheet.

Hull,Ruth Harbin Miles,2014-01-01 Bring learning mathematical skills into a whole new light for students in 1st grade This book provides fun and unique skill based games that encourage whole group whole class small group and partner interaction and collaboration These activities will reinforce students knowledge of mathematical skills while keeping learners motivated and engaged Promote a fun learning environment for students to achieve mathematical success **Learning and Teaching Early Math** Douglas H. Clements,Julie Sarama,2014-05-23 In this important book for pre and in service teachers early math experts Douglas Clements and Julie Sarama show how learning trajectories help diagnose a child s level of mathematical understanding and provide guidance for teaching By focusing on the inherent delight and curiosity behind young children s mathematical reasoning learning trajectories ultimately make teaching more joyous They help teachers understand the varying levels of knowledge exhibited by individual students which in turn allows them to better meet the learning needs of all children Using straightforward no nonsense language this book summarizes the current research about how children learn mathematics and how to build on what children already know to realize more effective teaching This second edition of Learning and Teaching Early Math remains the definitive research based resource to help teachers understand the learning trajectories of early mathematics and become quintessential professionals Updates to the new edition include Explicit connections between Learning Trajectories and the new Common Core State Standards New coverage of patterns and patterning Incorporation of hundreds of recent research studies **Stepping Up To Science and Math: Exploring the Natural Connections** National Science Teachers Association,2009-07-06 **Books in Print Supplement** ,2002 **El-Hi Textbooks and Serials in Print** ,2003 **El-Hi Textbooks & Serials in Print, 2003** ,2003 *Journal for Research in Mathematics Education* ,1997 Motor Skills and Their Foundational Role for Perceptual, Social, and Cognitive Development Klaus Libertus,Petra Hauf,2017-05-18 Motor skills are a vital part of healthy development and are featured prominently both in physical examinations and in parents baby diaries It has been known for a long time that motor development is critical for children s understanding of the physical and social world Learning occurs through dynamic interactions and exchanges with the physical and the social world and consequently movements of eyes and head arms and legs and the entire body are a critical during learning At birth we start with relatively poorly developed motor skills but soon gain eye and head control learn to reach grasp sit and eventually to crawl and walk on our own The opportunities arising from each of these motor milestones are profound and open new and exciting possibilities for exploration and interactions and learning Consequently several theoretical accounts of child development suggest that growth in cognitive social and perceptual domains are influenced by infants own motor experiences Recently empirical studies have started to unravel the

direct impact that motor skills may have other domains of development This volume is part of this renewed interest and includes reviews of previous findings and recent empirical evidence for associations between the motor domain and other domains from leading researchers in the field of child development We hope that these articles will stimulate further research on this interesting question
