**Social Class, Physical Education, and Community Sport** Michael Roy Hobson, Stuart Whigham, Izram Chaudry, 2025-12-31 This edited collection showcases a range of contributions from emerging and established academics to the contemporary study of social class community sport and physical education Compared to other markers of social identity in academic analyses of physical education and community sport such as gender race and ethnicity sexuality and disability discussions of social class have often been relegated to a secondary consideration However social class has shown to continually intersect with other markers of identity in shaping opportunities patterns of participation and social trends in physical education and community sport This collection illustrates the importance of social class relations within contemporary sociological analyses of physical education and community sport Each chapter draws upon a specific theoretical perspective to explicate the salience of social class within the domain of physical education and community sport offering an opportunity to critically examine a range of case studies and empirical data **Social Class Physical Education and Community Sport** re centres social class as a key consideration for the sociological study of physical education and community sport It will be of particular interest for students researchers and practitioners working across sociological sports and leisure studies

**Narrating the Everyday: Windows on Life in Central South Africa** Asta Rau, Magdalena Wojciechowska, Jan K. Coetzee, 2019-01-01 The chapters in this book reflect on the practice of using narratives to understand individual and social reality They all reveal dimensions of the same concrete reality contemporary society of Central South Africa Except for two all the chapters originated from research in the program The Narrative Study of Lives situated in the Department of Sociology at the University of the Free State in Bloemfontein South Africa Each chapter opens a window on an aspect of everyday life in Central South Africa Each window displays the capacity of the narrative as a methodological tool in qualitative research to open up better understandings of everyday experience The chapters also reflect on the epistemological journey towards unwrapping and breaking open of meaning Narratives are one of many tools available to sociologists in their quest to understand and interpret meaning But when it comes to deep understanding narratives are particularly effective in opening up more intricate levels of meaning associated with emotions feelings and subjective experiences

**Social Theory and Practice** ,2014 *Data Theory* Simon Lindgren, 2020-09-01 The datafication of our world offers huge challenges and opportunities for social science The data drivenness of computational research can occur at the expense of theoretical reflection and interpretation Additionally it can be difficult to reconcile the quantitative dimensions of big data with the qualitative sensibilities needed for its understanding At the same time this opens up possibilities for reimagining key principles of social inquiry In this experimental and provocative book Simon Lindgren argues

that a hybrid approach to data and theory must be developed in order to make sense of today's ambivalent turbulent and media saturated political landscape He pushes for the development of a critical science of data joining the interpretive theoretical and ethical sensibilities of social science with the predictive and prognostic powers of data science and computational methods In order for theories and research methods to be more useful and relevant they must be dismantled and put together in new alternative and unexpected ways Data Theory is essential reading for social scientists and data scientists as well as students taking courses in social theory and data digital methods big data and data and society
