Forty Years of Opera in Chicago Edward Colman Moore,1930

*150 Years of Opera in Chicago* Robert Charles Marsh,2006 Chicago s

love affair with opera began early in 1850 when the frontier town welcomed its first traveling opera singers. A full house applauded the opening performance but during a repeat performance the next day the theater burned to the ground. Nonetheless, Chicago had been bitten by the opera bug and it has never lost its enthusiasm for the art. More than sixty years and many visiting opera companies would pass before the city established an opera company of its own. Robert Marsh recounts the trials and triumphs of the entrepreneurs and the colorful international artists who brought opera to Chicago and staged it in a number of different theaters. In the first half of the twentieth century seven opera companies were started in Chicago and failed. Finally in 1954 three friends launched the company that became Lyric Opera of Chicago and the city gained a company that not only thrived but earned recognition as one of the nation's great cultural institutions. This book also details the history and fortunes of the Chicago Opera Theater from its inception in 1974 to the present. Singers, musicians, enterprising impresarios, richly decorated opera houses, and performances that held audiences spellbound all figure into Marsh's lively account of opera in Chicago. The story also provides an overview of changes in the operatic repertoire, audience development, and approaches to production as opera grew from a stand-and-sing event to its full flowering as enriching musical drama. Enlivened with nearly a hundred illustrations, *150 Years of Opera in Chicago* embraces its subject enthusiastically. This broad and engaging overview is supplemented with a list of professional opera performances in Chicago from 1850 to 2005.

**Chicago Grand Opera Co** Chicago Grand Opera Company (Chicago, Ill.), 1921      **Music in American Nineteenth-Century History** Billy Coleman, J. M. Mancini, 2024-12-09

This book brings together a trail-blazing collection of music scholars to explore the intersections, frictions, and resonances between nineteenth-century American music and history. In the nineteenth-century United States, music was everywhere, from places of worship to the workplace, the parlor, the stage, and the street. Music accompanied paths of reform, supported both radical and conservative agendas, and helped Americans of all kinds to express patriotism, identity, and resistance. The chapters in this volume unsettle longstanding assumptions about the types of music that were important to nineteenth-century Americans, where that music was performed, why, and for whom. And they underline the ability of music and musical practices to shed new light on questions of race, class, gender, and memorialization in the United States across the long nineteenth century. The volume offers insights for how and why to integrate nineteenth-century American music into history classrooms and highlights the need to embrace the challenge of interdisciplinary work to realize its greatest benefits.

This book will be relevant for students and researchers of American music history cultural studies and interdisciplinary historical analysis The chapters in this book were originally published as a special issue of American Nineteenth Century History

**From the Mountains to the Sea - A History of Los Angeles** John Steven McGroarty, 2016-10-17 What the author of this book has to tell is the true story of a great City that was founded by order of the King in the old days when the Western World was new It is the story of a City that for a century of time after its birth showed few signs of promise but which has now come to be the Greatest City of Western America and the metropolis of California the Land o Heart s Desire The history of any city that can be named almost is a story of its fortune that came from location or other accident to make it great But Los Angeles is a City that was made great by the people who one day found it sleeping in the sun oblivious to its destiny They were for the most part people who came from far regions of America seeking a more agreeable climate than that to which they had been accustomed This is the truth of the matter
