## I. INTRODUCTION

Age early is period gold ( *golden age* ) for development child for obtain education . Aspect development child age early covers religious and moral values , cognitive , physical motor , social emotional , and language ( Purwaningsih , 2018). Method counting needed for develop Skills much needed math in life everyday , mostly draft a number which is also the base for development ability mathematics nor readiness for follow education next ( Ministry of National Education , 2007). Age child early have extraordinary ability normal especially during childhood early . Desire child for study make they active and explorative . Child studying with whole five her senses for understand something in time short , they will switch to something else for learned . Environment sometimes make child hampered in develop ability learn it . An environment that doesn't conducive could hinder desire child for explore .

Ability counting start according to Susanto (2011) is capabilities , every child for develop ability its , characteristics development started from closest environment with himself , in line with development ability child could increase to Step definition about related amount with addition and subtraction . Smart kid no only clever boy mathematics just . At 4 years old child could mention order number until ten , meanwhile 5-6 years old could mention number so on .

Destination main in counting start mathematics for child in fact is for stimulate ability think child to have readiness in study math on stage next , so child capable dominate various knowledge and skills possible math they for capable solve problem in his life everyday ( Rachmawati , 2008; Clement & Sarama , 2005).

From the results study I am at RA Babuttaqwa school still many less child showing interest learn . Reason lack of interest study child the caused by several factor , like condition environment around , less parents notice children and interests study child the not enough spirit , factor to be reason in Thing this teacher still difficult in develop activity in the class so that child still not yet capable counting use finger fingers his hand . So researcher will researching with total 5 children manifold sex girl .

because that 's family participate role in development education child . Parents are sued for Fulfill whole necessity child in study , if all that no fulfilled so big possibility interest study child will reduced
