Behavior Adaptation In Late Life:

Behavior and Adaptation in Late Life Ewald W. Busse, Eric Pfeiffer, 1977 In this book we have tried to bring together basic information which has a bearing on how people adapt to growing old We feel that no single discipline whether it be psychiatry sociology biology or economics can claim to offer a comprehensive explanation of how aged people act think and feel or what the multiple determinants of their behavior are Moreover we feel that a mere collection of unrelated essays by experts from differing fields is not satisfactory but that instead an integration of the diverse contributions is needed Preface

Consumer Behavior over the Life Course George P. Moschis, 2019-01-31 This book examines consumer behavior using the life course paradigm a multidisciplinary framework for studying people s lives structural contexts and social change It contributes to marketing research by providing new insights into the study of consumer behavior and illustrating how to apply the life course paradigm s concepts and theoretical perspectives to study consumer topics in an innovative way Although a growing number of marketing researchers either implicitly or explicitly subscribe to life course perspectives for studying a variety of consumer behaviors their efforts have been limited due to a lack of theories and methods that would help them study consumers over the lifecycle When studying consumers over their lifespan researchers examine differences in the consumer behaviors of various age groups e g children baby boomers elderly etc or family life stages e g bachelors full nesters empty nesters etc inferring that consumer behavior changes over time or linking consumption behaviors to previous experiences and future expectations Such efforts however have yet to benefit from an interdisciplinary research approach This book fills this gap in consumer research by informing readers about the differences between some of the most commonly used models for studying consumers over their lifespan and the life course paradigm and providing implications for research public policy and marketing practice Presenting applications of the life course approach in such research topics as decision making maladaptive behaviors e g compulsive buying binge eating consumer well being and cognitive decline this book is beneficial for students scholars professors practitioners and policy makers in consumer behavior consumer research consumer psychology and marketing research

Aiken, 1978 Biomedical Index to PHS-supported Research, 1991 **Sexuality in Later Life** Lesley Hoyt Croft, 1982 **Mental Illness in Later Life** Eric Pfeiffer, 1973 Social Bonds in Later Life Warren A. Peterson, Jill S. Quadagno, 1985-06. As people age, they become less mobile and social networking becomes more difficult to maintain. This book examines the support networks of the elderly and reaches the conclusion that older people do not engage in relationships on the basis of a one-sided dependency; rather, relationships tend to be reciprocal or interdependent. The authors offer a positive and realistic approach to the relationship between the elderly and society.
