The Ethology of Domestic... Per Jensen, 2009 Modern farm environments are profoundly different from the natural habitats of the ancestors of today's farm animals and through genetic

selection the appearance and behaviour of the animals themselves have also changed However the legacy of the ancestors is still obvious and some apparently bizarre actions are only possible to understand in the light of the evolutionary history of the species On the other hand some of the behaviour we can observe in animals in a modern farm or in a laboratory are not part of the normal species specific behaviour at all They may even indicate that the animal is under stress and that its welfare is poor Distinguishing between these possibilities is one important goal for applied ethology

Domestic Animals, Humans, and Leisure Janette Young, Neil Carr, 2018-01-29 Domestic animals are an integral component of human leisure experience and can enhance the physical social and mental wellbeing of humans The interplay of human and animal experiences of justice wellbeing rights and roles within leisure is the central theme of this book Research explores the position of domesticated animals in human leisure experiences in a wide array of leisure settings Chapters question whether domestic animals may have a desire for leisure that is different from human leisure whether animals have and wish to fulfil needs for meaningful leisure or non leisure and whether human leisure needs and desires may coincide or contradict wellbeing interests of animals This book provides a venue for the dissemination and exploration of research which champions the welfare and rights of these animals to have their needs and interests in leisure recognised It moves the debate about animals in leisure beyond the current limits which have seen research mainly confined to the exotic other rather than more mundane everyday domestic animals This book will be of interest to individuals in the fields of tourism ethics zoology animal behaviour and leisure studies
