## Behind The Fact:

Talks on Writing English Arlo Bates, 2015-01-29 These talks were given in the autumn of 1894 as a course on Advanced English Composition in the Lowell Free Classes and that they are now printed is largely due to the fact that they were so well received by those who then heard them In preparing them I consulted whatever books upon composition came to my hand I examined some with profit some with pleasure and some it must be confessed not wholly without amusement or even impatience Doubtless I owe something to many of these books but I am not conscious of much obligation to any save the Principles of Rhetoric by Professor A S Hill English Composition by Professor Barrett Wendell and English Prose by Professor John Earle I have conscientiously endeavored to make the lectures as practical as possible stating as clearly as I could those things which would have been most helpful to me had I read and heeded them twenty years ago The necessity of holding an audience made fitting some effort to render the talks entertaining but I have never consciously said anything for the mere purpose of being amusing and I have never been of the opinion that a book gains either in dignity or in usefulness by being dull My purpose has throughout been sincerely serious and if the book shall prove helpful I shall have attained the object for which it was written

**Adventure**, 1920 **Advanced Case Law Methods: A Practical Course** Richard Cappalli, 2021-10-01 This book by the author of The American Common Law Method is an excellent source of continuing judicial education for judges at all levels as well as an accessible teaching tool for the classroom An opening section explains the basic principles of common law methods for creating and applying case law Advanced Case Law Method then examines the methods used by appellate courts in four states to create case lines on distinct topics After each case in each line the author poses several questions concerning the court's performance as a creator and user of case law For instance one chapter traces the at will employment doctrine as developed by the New York Court of Appeals and subsequent efforts to create public policy exceptions to the rule Another looks at the struggle of the appellate courts of Pennsylvania to limit the intentional infliction of emotional distress tort doctrine The New Hampshire group of cases goes back to the mid 18th century and examines railroad liability issues culminating in the 21st century with duties imposed on internet information providers when the buyer of information causes harm to the seller The Texas cases treat the spoliation doctrine which penalizes a party responsible for causing key evidence to disappear Following the questions raised by the examined cases Advanced Case Law Methods includes the suggested responses The text is then supplemented by a section intended to make the questions and suggested responses a springboard for discussion at seminars conferences and even classrooms Judges therefore won't have to worry about doing homework and getting wrong answers Published under the Transnational Publishers imprint

**Altavona. Fact and Fiction from My Life in the Highlands** John Stuart Blackie, 1882 **Albany Law Journal**, 1877 The Weaponization of Expertise Jacob Hale Russell, Dennis Patterson, 2025-03-04 The problem with expertise and the dark side of the equation knowledge power Experts are not infallible Treating them as such has done us all

a grave disservice and as *The Weaponization of Expertise* makes painfully clear given rise to the very populism that all knowing experts and their elite coterie decry Jacob Hale Russell and Dennis Patterson use the devastating example of the COVID 19 pandemic to illustrate their case revealing how the hubris of all too human experts undermined perhaps irreparably public faith in elite policymaking Paradoxically by turning science into dogmatism the overweening elite response has also proved deeply corrosive to expertise itself in effect doing exactly what elite policymakers accuse their critics of doing A much needed corrective to a dangerous blind faith in expertise *The Weaponization of Expertise* identifies a cluster of pathologies that have enveloped many institutions meant to help referee expert knowledge in particular a disavowal of the doubt uncertainty and counterarguments that are crucial to the accumulation of knowledge At a time when trust in expertise and faith in institutions are most needed and most lacking this work issues a stark reminder that a crisis of misinformation may well begin at the top
