## Key Of Jacob Boehme:

*The "Key" of Jacob Boehme* Jakob Böhme, 1981-01-01 Phanes fa nays means manifester or revealer and is related to the Greek words light and to shine forth Phanes Press was founded in 1985 to publish quality books on the spiritual philosophical and cosmological traditions of the Western world Since that time we have published 45 books including five volumes of Alexandria a book length journal of cosmology philosophy myth and culture The year 2000 marks our fifteen year anniversary and we are working to bring out more interdisciplinary works including books on creativity psychology literature and the intersections between science spirituality and culture The second edition of a volume in the Magnum Opus Hermetic Sourceworks series introducing the ideas and spiritual philosophy of a seventeenth century Christian mystic As a young man Boehme an unschooled shoemaker experienced an intense vision of the origin of the universe the struggle of polarities in creation and the role of Sophia or Divine Wisdom in the world In trying to find a language to communicate his mystical perceptions he turned to alchemical ideas and Hermetic imagery This condensation is taken from William Law s translation of Boehme s complete works and includes Law s Illustration of the Deep Principles of Jacob Boehme with thirteen emblematic figures designed by Dionysius Freher

Horton, 2026-01-27 A stunning history of spiritual but not religious thought in Western culture In this second volume of The Divine Self series Michael Horton explores changing conceptions of the divine self during the historic period from the Renaissance to the Scientific Revolution a tumultuous era of rethinking humanity's relationship to God and nature In Horton's telling this period is characterized not by steady diminishment of magic and orthodox religion and a corresponding rise of rational science but rather by lively and productive interaction between these influences Horton examines what is at stake for the divine self in this growing tension between magicians and Baconians and what role each plays in the development of the modern self He analyzes the work of renowned historical figures Luther Erasmus Descartes and Hobbes to name a few but also illuminates the activities of lesser known individuals and groups that were profoundly influential in their time From the gardens of Renaissance popes and dukes to Newton's alchemical pursuits life during this period is characterized by an intense search for the sacred and a desire for fullness forces that lay the groundwork for the spiritual but not religious phenomenon as we know it today Magician and Mechanic occupies an important place in a monumental three volume study of the divine self The first volume surveys antiquity through the late Middle Ages the third volume forthcoming will span the eighteenth century through the present day When the series is complete The Divine Self will stand as the authoritative guide to the spiritual but not religious phenomenon in Western culture

Clack, 2000-08-30 From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the works of Edward Taylor Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process

**Autobiography** Rudolf Steiner, 1999 Rudolf Steiner has been called the best kept secret of the twentieth century In this

book Steiner recalls the first thirty five years of his life and spiritual path It was written in weekly installments for the anthroposophic newsletter to the members Steiner did not often speak or write of himself in a personal way Thus this book offers us an extremely rare opportunity to intimately view his inner life the relationships he developed with those he encountered along the way and the events that shaped him This is no ordinary narrative of life s successes and failures but an autobiography of a soul Each event and personal encounter is seen and gauged in relation to its spiritual roots and consequences We witness the evolving consciousness of a modern spiritual master This book is the self portrait of a man whose ideas remain ahead of our time a man whose ideas are sorely needed in an increasingly confused and materialistic world
