Designing Places For Learning:

Creating Dynamic Places for Learning Peter C. Lippman, Elizabeth A. Matthews, 2023-08-22 This book showcases how an evidence based design approach can be utilized in the planning of learning environments by acknowledging the interconnectedness of research practice and theory as core considerations in the design of learning environments Toward this end this volume explores a multi disciplinary perspective that draws upon modern learning theories and empirical research from the fields of environmental psychology education and architectural practice By presenting this information in an accessible manner it enables researchers educators and designers to take actionable steps needed to re imagine their settings and create dynamic places for learning

Designing Places for Learning Anne Meek, 1995 This book presents information about the condition of schools around the United States It also describes the link between architecture and academic success and offers suggestions for improving the design of existing and future school buildings Eleven articles look at schools as places of deep meaning and show how that view can alter approaches to the design construction and renovation of schools Following the preface *The Importance of the School as Place* by Anne Meek the articles include 1 *Systemic School Reform Implications for Architecture* Edward B Fiske 2 *Design Patterns for American Schools Responding to the Reform Movement* Gary T Moore and Jeffery A Lackney 3 *Place as a Form of Knowledge* Steven Binger 4 *Using Cultural Information To Create Schools That Work* Sara Snyder Crumpacker 5 *Revitalizing an Older School* Harold L Hawkins 6 *Crow Island School 54 Years Young* Anne Meek with Steven Landfried 7 *Planning Your School's Technology Future* Bob Valiant 8 *How Schools Are Redesigning Their Space* Anne Taylor 9 *Opening Doors for Students with Disabilities A Photo Essay* Krista W Barton with DeeLynn Smith 10 *Buildings Matter The Connection between School Building Conditions and Student Achievement in Washington D C* Maureen M Berner and 11 *Wasting Our Assets The Costs of Neglecting the Nation's Education Infrastructure* Andrew C Lemer Each chapter contains references A list of resources written and contact organizations is included LMI

A Guide to Designing Curricular Games Janna Jackson Kellinger, 2016-10-19 This book is a guide to designing curricular games to suit the needs of students It makes connections between video games and time tested pedagogical techniques such as discovery learning and feedback to improve student engagement and learning It also examines the social nature of gaming such as techniques for driver navigator partners small groups and whole class structures to help make thinking visible it expands the traditional design process teachers engage in by encouraging use of video game design techniques such as playtesting The author emphasizes designing curricular games for problem solving and warns against designing games that are simply Alex Trebek host of Jeopardy wearing a mask By drawing on multiple fields such as systems thinking design theory assessment and curriculum design this book relies on theory to generate techniques for practice

Designing Schools Kate Darian-Smith, Julie Willis, 2016-09-13 *Designing Schools* explores the close connections between the design of school buildings and educational practices throughout the twentieth century to

today Through international cases studies that span the Americas Europe Africa and Australia this volume examines historical innovations in school architecture and situates these within changing pedagogical ideas about the best ways to educate children It also investigates the challenges posed by new technologies and the digital age to the design and use of school places Set around three interlinked themes school buildings school spaces and school cultures this book argues that education is mediated or framed by the spaces in which it takes place and that those spaces are in turn influenced by cultural political and social concerns about teaching learning and the child

Interface Design for Learning Dorian Peters,2014
In offices colleges and living rooms across the globe learners of all ages are logging into virtual laboratories online classrooms and 3D worlds Kids from kindergarten to high school are honing math and literacy skills on their phones and iPads If that weren't enough people worldwide are aggregating internet services from social networks to media content to learn from each other in Personal Learning Environments Strange as it sounds the future of education is now as much in the hands of digital designers and programmers as it is in the hands of teachers And yet as interface designers how much do we really know about how people learn How does interface design actually impact learning And how do we design environments that support both the cognitive and emotional sides of learning experiences The answers have been hidden away in the research on education psychology and human computer interaction until now Packed with over 100 evidence based strategies in this book you'll learn how to Design educational games apps and multimedia interfaces in ways that enhance learning Support creativity problem solving and collaboration through interface design Design effective visual layouts navigation and multimedia for online and mobile learning Improve educational outcomes through interface design
