Agnos Years:

The Activist's Handbook Randy Shaw, 2013-08-26 The Activist's Handbook Winning Social Change in the 21st Century details the impact of specific strategies on campaigns across the country from Occupy Wall Street to battles over sweatshops the environment AIDS policies education reform homelessness and more How should activists use new media tools to expose issues and mobilize grassroots support When should activists form coalitions and with whom How are students be they DREAMers seeking immigration reform or college activists battling ever increasing tuition costs winning major campaigns Whether it is by inspiring fear and loathing in politicians building diverse coalitions using ballot initiatives or harnessing the media the courts and the electoral process towards social change Shaw a longtime activist for urban issues shows that with a plan positive change can be achieved

The Politics of Downtown Development Stephen J. McGovern, 1998 Through an insightful comparison of effective protest in San Francisco and ineffective protest in Washington D C Stephen McGovern examines how citizens even those lacking financial resources have sought to control their own urban environments His analysis reveals that grassroots activists seeking broad changes in land use policy are more likely to prevail if they can transform the local political culture through their own deliberate efforts
