Air Disasters:

Aviation Disasters David Gero, 2009-05-29 Flying as an airline passenger is statistically one of the safest forms of travel. Even so, the history of civil aviation is littered with high profile disasters involving major loss of life. This new edition of the authoritative work on the subject brings the grim but important story of air disasters right up to date. David Gero assembles a list of major air disasters since the 1950s across continents. He investigates every type of calamity including those caused by appalling weather, mechanical failure, pilot error, inhospitable terrain, and hostile action. The first incident of sabotage involving a commercial jetliner is covered, as is the first much feared crash of the jumbo jet era. Examined alongside less well known disasters are high profile episodes such as that of Pan American Flight 103 at Lockerbie in 1988, the Twin Towers tragedy of 11 September 2001, and more recently the disappearance of Malaysia Airlines Flight 370 in 2014, the greatest mystery of the commercial jet age. *Aviation Disasters* is the authoritative record of air disasters worldwide, fully illustrated with a fascinating selection of photographs.

Air Disasters Mary B. Woods, Michael Woods, 2008-01-01 Air disasters don't happen often, but when they do, they take a terrible toll. Airplane crashes usually lead to death and destruction. But quick thinking on the part of pilots, passengers, airport workers, and rescuers can help more people survive air disasters. With dramatic images and firsthand survivor stories, plus the latest facts and figures, this book shows you some of the world's worst air disasters up close.

Air Disasters Ann Weil, 2012-09-01 This series of nonfiction readers will grab a student's interest from the very first page. Designed with struggling readers in mind, these riveting 92-page books offer short chapters on significant disasters. Each chapter is its own mini-book, which includes a timeline, key terms, and interesting facts. Fascinating black and white photographs keep the pages turning. A bibliography encourages further topical reading. Disasters are inherently frightening, riveting, and involving. Grabbed straight from the headlines, these disasters leave tragedy, destruction, and years of anguish. 1977 Tenerife, 1972 Chile, 1982 The Potomac River Shot Down, Terrorism, Captain Sully, Sullenberger, and more.

Air Disasters Roger Coote, 1993 Highlights some of history's most notable air disasters, including the explosion of the Hindenburg and the Challenger space shuttle.

History of U.S. Aviation Disasters Rodney Stich, 2010-05-29 History of forewarned and preventable aviation disasters that were caused or allowed to occur by politics, incompetence, and hard corruption. Authored by former federal airline safety inspector, investigator, airline captain, and Navy patrol plane commander. Further information at www.defraudingamerica.com.

Air Disasters Stanley Stewart, 1986 Reprint of a 1986 title in softback, records twelve of the most significant air disasters during the last fifty years, from the crash of the R 101 airship in 1930 to the two 747 disasters of 1985, the Japan Air Lines crash near Tokyo, and the Air India flight disappearance off the Irish coast.
