Continuing Legacy is the first in depth study of this eighteenth century British architect s impact on the work of others
extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that
the influence of Soane 1753 1837 has persevered through the centuries rather than waning around the time of his death
Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a
number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the
longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today
concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane s late
Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries
Through this survey Bradbury demonstrates that Soane s influence has been truly international in the pre modern era
reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of
select detailed case studies Bradbury contends that Soane s is a continuing not negated legacy in architecture Catalogue
