The CW Comes of Age Ashley Lynn Carlson, Lisa K. Perdigao, 2022-03-28 Often overlooked in the history of broadcast television The CW became a top rated cable network in primetime during the mid 2000s at a moment when many critics predicted the death of the medium Launched as a joint venture and successor to The WB and UPN The CW focused programming on an 18 to 34 year old predominantly female audience and soon won over viewers with shows like Gossip Girl Jane the Virgin and the DC Arrowverse franchise Nimblely adapting to the streaming services era the network has strengthened new series development and its innovative distribution system This collection of new essays examines The CW's business model marketing strategies and most popular series

*Random Dingo*es Ira Nayman, 2015-04-03 Think back to a time in your life that you made a decision that you now regret Oh don't be so coy everybody has one Okay maybe not Mother Teresa Or Bruce Springsteen But unless you're Mother Teresa or Bruce Springsteen and we're pretty sure you're not you have been in that position What if you could go back in time and change that decision What if you could make the other choice Or even better choose a third option that you didn't even see at the time Wouldn't you like to know how things would have turned out if only you had done something different at that critical juncture in your life DON'T BOTHER Have you ever read any science fiction time travel stories Don't you know that they always end with either dinosaurs becoming the dominant species on the planet or your grandfather killing Hitler causing you to be born with a speech impediment and an irrational fear of listening to Born in the USA Time branches are not something you can borrow books from they are paths to realities that you couldn't anticipate and don't want to live in and just try to get a decent corned beef on rye in any of them In *Random Dingo*es the third Transdimensional Authority novel by Ira Nayman investigators Noomi Rapier and Crash Chumley look into reports of a drug that allows people to travel between universes without technological assistance They methodically work their way up the drug ring's chain of command and are just about to arrest its leader when time travel happens With the assistance of Time Agency agent Radames Trafshanian Noomi and Crash must navigate realities they hadn't anticipated and which they wouldn't want to live in But can they find a decent corned beef on rye You'll have to read *Random Dingo*es to find out
