roadmasters and farmers and consists in sending out the boy with a yoke of oxen or the hired man with a team to run a couple of furrows up and down the gutters with a plow thereby loosening but not destroying all this vegetable growth which is then either left to obstruct the gutters with useless ridges or ung out over the road to pack down in all sorts of unequal masses About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
