Sacred Space, Sacred Sound Susan Elizabeth Hale, 2013-11-01 Visionary singer Susan Hale believes that early peoples deliberately built their structures to enhance natural vibrations She takes us around the globe from Stonehenge and New Grange to Gothic cathedrals and Tibetan stupas in New Mexico to explore the acoustics of sacred places But she says you don't have to go to the Taj Mahal The sacred is all around us and we are all sound chambers resonating with the One Song

The Miracle of Death Betty J. Kovács, 2003 The Miracle of Death comes to us at a time when transformation is necessary for our survival Every page of this testament to life loosens our grip on the imagination and opens us to dimensions of the mind that speak in images metaphors and symbols We emerge from these experiences surrounding death with an expanded view of life a path more illuminated and the courage to live by the wisdom of our visions We adjust our senses to experience new ways of hearing seeing and knowing what is real We go inward on our own journeys to confront the mysteries of our existence the mysteries of life and death and we return knowing how to live our lives Foreword by Anne Baring Includes Index Further Reading [The Petroglyphs of Mu](#) Carole Nervig, 2022-08-09 Shows how the archetypal symbols of the Pohnpaid petroglyphs have exact counterparts in other ancient cultures throughout the world Provides evidence that Pohnpaid is closely related to yet predates neighboring Nan Madol Includes hundreds of Pohnpaid petroglyphs and stone circle photos many never before seen While residing on the small Pacific island of Pohnpei in the 1990s Carole Nervig discovered that a recent brush fire had exposed hundreds of previously unknown petroglyphs carved on gigantic boulders This portion of the megalithic site called Pohnpaid was unknown even to Pohnpei's state historic preservation officer The petroglyphs were unlike others from Oceania so Nervig began investigating and comparing them with petroglyphs and symbols from around the world In this fully illustrated exploration Nervig documents her discoveries on Pohnpei revealing how the archetypal symbols of the Pohnpaid petroglyphs have exact counterparts in other ancient cultures and universal motifs throughout the world including the Australian Aborigines the Inca in Peru the Vedic civilization of India early Norse runes and Japanese symbols She provides evidence that Pohnpaid is closely related to yet predates neighboring

Nan Madol and shows how Pohnpaid was an outpost of the sunken Kahnimueiso a city of the now vanished civilization of Mu or Lemuria Discussing the archaeoastronomical function of the Pohnpaid stones the author examines how many of the glyphs symbolize celestial phenomena and clearly reveal how their creators were sky watchers with a sophisticated understanding of astronomy geophysics geomancy and engineering She shows how the scientific concepts depicted in the petroglyphs reveal how the citizens of Mu had a much deeper understanding of the living Earth than we do which gave them the ability to manipulate natural forces both physically and energetically Combining archaeological evidence with traditional oral accounts Nervig reveals Pohnpaid not only as a part of a geodetic network of ancient sacred sites and portals but also as a remnant of the now submerged but once enlightened Motherland of Mu

This newly translated volume of the Collected Works of Marie Louise von Franz one of the most renowned authorities on

fairytale presents a systematic and wide ranging approach Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane realm of ordinary daily life She was one of Analytical Psychology's most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life's events The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales While peregrinations of fairytale motifs occur the common root of fairytales is more archetypal than geographic A striking feature of fairytales is that a sense of space time and causality is absent This situates them in a magical realm a land of the soul where the most interesting things happen in the center of places like Heaven mountains lakes and wells At the age of eighteen Marie Louise von Franz was invited to meet Carl Gustav Jung at Bollingen Tower She immediately recognized that there exist two levels of reality one outer and the other inner Within months she had enrolled at the University of Zurich and began attending Jung's lectures at the ETH Eidgenössische Technische Hochschule or the Swiss Federal Institute of Technology Less than a decade after meeting Jung von Franz had completed her doctorate in classical philology and begun seeing her first analysands She was a prolific writer a dedicated teacher and lecturer and was possessed of a far reaching and often non discriminating Eros that accepted everyone seeking help Alfred Ribi MD
