East Asian Dynamism Steve Chan, 1993 East Asian Dynamism continues to offer a succinct account of Pacific regional political economy from the dawn of the modern world system to projections of alternative futures Steve Chan is a master at demystifying the geography history and culture of the region while bringing to life the current policy choices and dilemmas facing its people and leaders In this new edition he broadens the geographical scope of the book to encompass more of Southeast Asia and Australia with specific coverage of Thailand Vietnam Malaysia Burma Indonesia and Singapore highlighted along the way And now that peace has broken out all over the focus shifts strongly to issues of growth trade and cultural interface as Pacific regional security becomes more and more a function of economic strength regional cooperation and global outreach

East Asian Transformation Jeffrey Henderson, 2011-02-25 From the re emergence of Japan as an industrial power in the 1950s through to the contemporary rise of China as a potential economic and political behemoth the story of East Asian development has been central to any serious analysis of the dynamics and trajectory of the global political economy Integrated into a coherent critical narrative this book examines key political economic and social dynamics that helped forge the miracle economies of East Asia and continue to drive them forward in the volatile circumstances of our current epoch It analyses the relation between the state and markets the changing nature of economic governance and its relation to inequality and the rise of China and its international consequences Historically informed and comparative in nature the book contributes to the analysis of the transformations of Japan Hong Kong South Korea Taiwan Singapore Malaysia and China and is the first to cover the ground in one volume Written by a leading analyst of East Asian development the book engages with the relevant issues and debates in an open non technical language making it useful as an advanced textbook not only for East Asian studies but more generally in international political economy and development studies

Beyond the Miracle and Crisis: East Asian Dynamism and the Pacific Economic Order in Perspective, 1999

East Asian Development Model Shiping Hua, Ruihua Hu, 2014-12-17 Given the impressive growth in East Asia after World War II initially led by Japan the region's development models have been scrutinized since the 1980s The shared Confucian cultural heritage strong government guidance and export led economies were often cited as contributors to the impressive growth However major changes have taken place in Asia on and around the turn of the century Japan experienced two decades of economic slow down while World Bank figures reveal that China is poised to become the

largest economy in the world in 2014 overtaking the United States Bearing this in mind is it even possible to formulate an East Asian development model in the context of a shifting twenty first century And if so what is it This book addresses this issue by looking at the economic political and cultural perspectives of China Japan and South Korea focusing on dynamism and potential consensus regarding an East Asian development model The chapters offer a historical background to the East Asian development model as well as in depth case studies of each of the countries concerned to show that whilst the East Asian development model does have distinct characteristics as compared with other areas and other countries may draw some insights from the East Asian experience it is not a panacea that fits all circumstances and fits all times This book will be welcomed by students and scholars of Asian economics Asian politics international political economy and development studies

Restoring East Asia's Dynamism Seiichi Masuyama, Donna Vandenbrink, Chia Siow Yue, 2000 This volume addresses issues that are critical to defining a new paradigm for East Asian economic growth Specifically the authors examine the strategies adopted in coping with the crisis policy responses to rectify weaknesses that might have induced or aggravated the crisis and structural problems to be resolved in order to bring East Asian economies back firmly to a path of long term growth

Globalization and Development in East Asia Jan Nederveen Pieterse, Jongtae Kim, 2012 East Asia is widely regarded as the main winner in contemporary globalization unscathed by the economic crisis of 2008 with its leading new industrializing nations and emerging economies While twentieth century globalization was mainly led by the West the twenty first century is ushering in different dynamics The re emergence of Asia involves alternative visions of the world and different perspectives on globalization This volume seeks to address these dimensions turning to local reflexivities notably in South Korea and China to explore the key debates in sociology and political economy within East Asia rather than from an outside view
