East Of Suez:

Britain's Withdrawal From East of Suez J. Pickering, 1998-07-13 After 1945 Britain maintained a great chain of overseas military outposts stretching from the Suez Canal to Singapore Commonly termed the east of Suez role this chain had long been thought to be crucial for the country's security and its vitality Nonetheless British leaders eventually decided to abandon this network of bases This study provides the most comprehensive explanation of this pivotal decision to date while also offering insight into the processes of foreign policy change and the decline of great powers *East of Suez and the Commonwealth 1964-1971: East of Suez* William Roger Louis, S. R. Ashton, 2004 The main purpose of the British Documents on the End of Empire Project BDEEP is to publish documents from British official archives on the ending of colonial rule and the context in which this took place This publication is the first of three volumes which examine the years 1964 to 1971 during which period ten territories became independent and all but one Aden became new members of the Commonwealth Issues considered include the symbolic significance of the recall of British troops from East of Suez and the circumstances of Britain's withdrawal from Aden a reappraisal of British interests in South East Asia in the context of Singapore's secession from Malaysia the ending of confrontation with Indonesia British views on the Vietnam conflict the end of Britain's treaties of protection in the Persian Gulf and the creation of the UAE *Britain's Withdrawal from East of Suez* Jeffrey Pickering, 1998

Confrontation, Strategy and War Termination Dr Christopher Tuck, 2013-03-28 At the heart of this book is the problem of war termination Britain won an almost unbroken string of tactical military victories during an undeclared war against the Republic of Indonesia in the 1960s yet it proved difficult to translate this into strategic success Using conflict termination theories this book argues that British strategy during Confrontation was both exemplary and flawed both of which need not be mutually exclusive The British experience in Indonesia represents an illuminating case study of the difficulties associated with strategy and the successful termination of conflicts The value of this book lies in two areas as a contribution to the literature on British counter insurgency operations and as a contribution to the debates on the problems of war termination in the context of strategic thought *Defence and Decolonisation in Southeast Asia* Karl Hack, 2001 This text explains British defence policy by examining the overlapping of colonial military economic and Cold War factors in Southeast Asia *British Grand Strategy in the Age of American Hegemony* William D. James, 2024 Employing several historical case studies between 1940 2003 and marshalling a host of primary sources William D James argues that British politicians and officials have thought in grand strategic terms under American hegemony even if they do not realise or admit to this **Somewheres East of Suez** Tristan Jones, 2014-04-01 In 1983 Tristan Jones well known as one of the finest sailing adventure writers of our time had his left leg amputated Refusing to become landbound after a lifetime at sea he acquired a specially designed virtually untippable 38 foot trimaran and began to sail around the world Outward Leg is the tale of his intrepid voyage from San Diego to London The Improbable Voyage chronicles his heroic journey along an unusual and

hazardous route from the North Sea through the rivers of Central Europe to the Black Sea In Somewheres East of Suez the final installment of this extraordinary saga Tristan sails eight thousand miles from Istanbul to Thailand From the tourist and terrorist dominated ports of the eastern Mediterranean to African outposts peopled with famine refugees Tristan maintains the unique perspective of a man who has had minimal contact with society s restraints using his acerbic wit to spare no fools and offer biting social commentary After barely escaping with his life in South Yemen he sets off for the Far East determined to win out against the difficulties of his disability whether battling a tropical cyclone or surviving on a dwindling ration of fresh water in the vast windless expanse of the Indian Ocean
