*Strategies for Early Writing* Tawny Wiley, 2008      Supporting Boys' Writing in the Early Years Julie Cigman, 2018-10-08

This second edition of *Supporting Boys Writing in the Early Years* shows how you can help boys to become confident and capable writers by supporting them to write in ways that make sense to them on the move outside and inside in dens in bushes in mud or sprawled on the floor dressed as superheroes. The book reveals that a playful child centred approach can allow boys and girls to develop a writer's voice, raise attainment in writing and enhance all aspects of young children's development. This new edition includes brand new examples, case studies and photographs from over 200 recent early writing projects up to date references fully in line with the latest Early Years Foundation Stage (EYFS) documentation, a response to the increased focus in schools on handwriting in particular on cursive handwriting, a questioning of the place of objective led print in the classroom and a recommendation that environmental print should reflect learning rather than teaching imaginative ideas for developing oral and written storytelling, a consideration of some of the ways in which challenging active play such as superhero and weapon play can be channelled into playful writing, a greater discussion and challenging of the emphasis placed on outcomes over the process of learning and development. *Supporting Boys Writing in the Early Years* will help you to create a truly enabling environment for writing and supports the belief that writing experiences should be EPIC: Everywhere, Playful and Purposeful, Inspirational and Contextualised. It is an essential read for all practitioners who want the children in their setting to flourish as motivated and creative writers.

**Substance of the Ancient Maya** Andrew K.

Scherer, Thomas G. Garrison, 2024-12-01 *Substance of the Ancient Maya: Kingdoms and Communities, Objects and Beings* collects twelve essays by top scholars that highlight what is new in research pertaining to the ancient Maya. Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality. These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology, epigraphy and art history. The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya: from hand held objects to entire kingdoms. This dichotomy reflects the breadth of questions central to current research on the Maya. It also illustrates how certain themes such as the relationship between the living and the realm of the supernatural are fundamental to both thinking by and about the Maya at all scales. A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book, illustrating that archaeologists, epigraphers, geographers and art historians can equally contribute to the substance of kingdoms and communities as they can to objects and beings. Collectively these contributions show how the objects and beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors. A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past.
