Early Warning And Conflict Resolution:

Early Warning and Conflict Resolution Kumar Rupesinghe, 1992 Can we prevent violent conflicts and wars in the future This volume reflects the growing interest in developing an early warning capability within the research community in international humanitarian and aid agencies and in international institutions such as the United Nations By early warning we mean information that can provide a timely alert to potential conflicts Key issues covered in the book include the manner in which the concept of early warning is translated into methodological approaches identification of root causes for disputes and conflict situations selection of indicators determination of methodologies use of new technologies possible development of networking search for conditions for the settlement of conflicts The processing analysis and evaluation of information is systematically approached in the collection The reader will find case studies and practical approaches as well as theory oriented papers Authors have been encouraged to take a real life approach rather than pursue a lofty and inaccessible theoretical discourse of little consequence BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Early Warning and Conflict Prevention Klaas van Walraven, 2024-01-15 The end of the cold war did not begin an era of world peace The forces of marginalization civil war and genocide have uprooted whole societies in Africa the Balkans and the Caucasus In fact the end of superpower competition means that the world now lacks external actors powerful enough to intervene successfully in local conflicts The early 1990s saw the beginning of a search for possibilities for conflict prevention This work is one of the first to set the analysis of early warning and conflict prevention firmly in the context of the changes and continuities in the structures of post Cold War politics *Early Warning and Conflict Prevention* proceeds from the position that sufficient early warning could enable governments and international organizations to intervene at an early stage rather than waiting until disputes erupt into violence It analyses the theoretical and practical complexities of timely warning and effective response in conflict resolution It also investigates the extent to which conflict prevention has become a concrete element in the policies of governments non governmental organizations and international organizations The result of an international symposium on early warning and conflict prevention in November 1996 this work examines this significant issue in international relations within the unique political framework of post Cold War developments making it an important resource for academics policymakers government officials and others interested in the present and future state of conflict resolution

Early Warning and Conflict Management in the Horn of Africa Cirû Mwaûra, Susanne Schmeidl, 2002 The Horn of Africa has come to be defined by the frequency and intensity of its violent conflicts Yet whereas in other regions conflict prevention stresses formal top down inter governmental structures in the Horn of Africa an alternative conflict management regime that seeks to build on local capacity and is based on inclusive and collaborative decision making has emerged This publication outlines the two year process of CEWARN s and IGAD s development

The Resolution of African Conflicts Alfred G. Nhema,Paul Tiyambe Zeleza,2008 These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots routes regimes and resolution of African conflicts and how to re build post conflict societies They offer sober and serious analyses eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories From the introduction by Paul Tiyambe Zeleza This book offers analyses of a range of African conflicts and demonstrates that peace is too important to be left to outsiders *Early*

Resolution in the Twenty-first Century Jacob Bercovitch,Richard Dean Wells Jackson,2009-08-04 In the past arbitration direct bargaining the use of intermediaries and deference to international institutions were relatively successful tools for managing interstate conflict In the face of terrorism intrastate wars and the multitude of other threats in the post Cold War era however the conflict resolution tool kit must include preventive diplomacy humanitarian intervention regional task sharing and truth commissions Here Jacob Bercovitch and Richard Jackson two internationally recognized experts systematically examine each one of these conflict resolution tools and describe how it works and in what conflict situations it is most likely to be effective Conflict Resolution in the Twenty first Century is not only an essential introduction for students and scholars it is a must have guide for the men and women entrusted with creating stability and security in our changing world Cover illustration iStockphoto com *Early Warning and Conflict Resolution* Sandra Coliver,1990 *Peace and*
