Earth House Hold

Both Pound and Williams have shown how a good poet can revitalize prose style. *Earth House Hold* (a play on the root meanings of "ecology") drawn from Gary Snyder's essays and journals, may prove a landmark for the new generation.

"As a poet," Snyder tells us, "I hold the most archaic values on earth. They go back to the late Paleolithic: the fertility of the soil, the magic of animals, the power-vision in solitude, the terrifying initiation and rebirth; the love and ecstasy of the dance, the common work of the tribe." He develops, as replacement for shattered social structures, a concept of tribal tradition which could lead to "growth and enlightenment in self-disciplined freedom. Whatever is or ever was in any other culture can be reconstructed from the unconscious through meditation . . . the coming revolution will close the circle and link us in many ways with the most creative aspects of our archaic past."
