*Accountability in the Economic and Monetary Union* Menelaos Markakis, 2020-04-02 Following the financial and public debt crisis the EU's Economic and Monetary Union (EMU) has been under intense political scrutiny. The measures adopted in response to the crisis have granted additional powers to the EU and national authorities, the exercise of which can have massive implications for the economies of the Member States, financial institutions, and of course citizens. The following questions arise: how can we hold accountable those institutions that are exercising power at the national and EU level? What is the appropriate level, type, and degree of accountability and transparency that should be involved in the development of the EU's governance structures in the areas of fiscal and economic governance and the Banking Union? What is the role of parliaments and courts in holding those institutions accountable for the exercise of their duties? Is the revised EMU framework democratically legitimate? How can we bridge the gap between the citizens and the institutions that represent them and those institutions that are making these important decisions in the field of economic and monetary policy? This book principally examines the mechanisms for political and legal accountability in the EMU and the Banking Union. It examines the implications that the reforms of EU economic governance have had for the locus and strength of executive power in the Union, as well as the role of parliaments and other political fora and courts in holding the institutions acting in this area accountable for the exercise of their tasks. It further sets out several proposals regarding transparency, accountability, and legitimacy in the EMU.

**Beyond Ukraine** Aldo Ferrari, 2017-07-20 During the last 15 years, Putin's policies have produced a number of controversial effects, both at the international and domestic levels: some diplomatic results and unresolved regional conflicts. In foreign policy, he accordingly launched the idea of a Greater Europe. To this aim, and with the view to highlighting the goodwill of the Russian government to enhance cooperation with the European Union as a proactive and equal partner, sooner than expected, political divergences and vital interests emerged. As a result, the Greater Europe project was progressively frozen, if not plainly abandoned. However, the EU-Russia joint attempts to solve the Ukrainian crises, which were undertaken during the Normandy Four meetings (Germany, France, Russia, Ukraine), resulted in signing the weak but still important Minsk agreements. This helps to prove that there is still room for cooperation between the two sides. These agreements may hopefully set the stage for a more comprehensive deal aiming to close the gap between the EU's and Russia's competing visions.
